HOME TALENT MUSICALE MONDAY

PROGRAM TO BE PRESENTED BY LOCAL MUSICIANS AT FIRST CHRISTIAN CHURCH

BENEFIT PUBLIC LIBRARY

Proceeds of Entertainment To Be Used To Replenish Book Supply.

The musical talent of the city will [illegible] entertainment next Monday evening at the First Christian church for the benefit of the book department of the Public Library. The book committee is asking the people of Maryville to support this entertainment, both on account of the attractiveness of the program to be given and the urgent need of the library of more money for books.

It will be distinctly a Maryville program, to a Maryville audience for the benefit of all Maryvillians. It will make its appeal to all lovers of good music, and its variety will please all. Because of the excellence of the program the committee is hoping that the public will respond generously.

The money is needed to purchase new books and to rebind those now on the shelves which are badly worn. books that must be immediately re- We now have more than two hundred bound or discarded. The last shipment to the bindery was in December, 1917, and the last purchase of new books was in April, 1918. So it will be seen that we are more than a year behind in our needs. No money has been spent or will be spent for current fiction out of the income from taxation. Fiction literature is supplied and kept by those who read it, each one paying a penny a day for each book used. Only books of reference, standard literature, science, history, art, and such other books as are considered indispensable by all libraries, are purchased from taxation.

The money received by the library from the city last year was more than two hundred dollars less than was received from the same source the year before, and the expense of maintenance was greater on account of the increased cost of everything. So the purchase of new books and the repair of old ones was discontinued for more than a year. But this can not continue longer without the service the library should render being seriously hampered.

So the committee is making its appeal to you for a liberal patronage of the entertainment to be given, not as an offering, but as an incidental benefit to the library resulting from the money you pay out for that which is more than just value received. The library belongs to the people of the city, the need for more books is urgent, and for this reason we ask you to support this entertainment. The admission price is 35 cents.

THE BOOK COMMITTEE.
C. A. HAWKINS, Chairman.
SUPT. J. M. McDONALD.
DR. S. E. DAVIS.

Corp. Clarence E. McDonald, son of Mr. and Mrs. J. M. McDonald of 514 Prather avenue, arrived home yesterday, having been released from military service. Corp. McDonald was a member of Company A, 315 Infantry, 88th Division. He served six months overseas.

11 TO RECEIVE DIPLOMAS AS W[illegible] HIGH SCHOOL GRADUATES

Exercises to [illegible] Guilford Tomorrow Night. [illegible] to Present the [illegible]

The annual graduating exercises of the Washington township rural schools will be held at 8 o'clock tomorrow evening at Guilford. Prof. S. E. Davis of the State Teachers College will deliver the class day address and the presentation of the diplomas will be made by County Superintendent of Schools Bert Cooper.

Following are the graduates who will receive diplomas:

Velma Skidmore, Nile Schweikhardt, Wilson Craig, Alden Davis, Opal Willhite, Blanche Knudson, Irene Wenderly, Edra Wallace, Marvin Winters, Gladys Hailey, Leona Whorton.

RUMORS CONFLICT ON WIRE STRIKE

STRIKERS [illegible] COMPANY OFFICIALS EXPRESS DIFFERENT VIEWS.

REPORT 20,000 ARE OUT

Possibility That Broker Operators will be Called Out—Would Add Several Thousand.

Chicago, June 12.—The nation-wide strike of the telegraphers is a success and will gain strength as it grows older—the strike is a flat failure and will fizzle out within a few days—these are the views of the situation held today. The first bit is the opinion of officials and members of the union, while the second is the view taken by the officials of the Western Union company. The public is privileged to accept either view.

According to the president of the union, the first day of the strike took between eighteen and twenty thousand men and women operators from the keys. It is maintained that other operators would go on strike until the number is increased to forty thousand by tonight. The single new phase of the situation today is the posssibility of the broker operators being called out, which, if the move is successful, would add several thousand men to the list of strikers.

HOLD POSTPONED MEETING AT QUITMAN NEXT SUNDAY

Meeting Arranged for Last Week Was Called Off Because of Rain—For Soldier Memorial.

The Citizens Meeting that was to have been held at the Methodist church in Quitman last Sunday afternoon was not held on account of rain, but this same meeting is called again for next Sunday, June 15 at 3 p. m. The object of this meeting is as was stated before, to perfect a Township organization for the purpose of rightly remembering our boys from Green Township who so gladly and bravely gave their services in the world's war for our protection. We will again ask for a full representation from all parts of the township.

Mr. and Mrs. J. D. Dovenspike of Silver City, Ia., are visiting in Bedison with Mr. and Mrs. J. F. Kidd and family and Mrs. W. W. Kidd and family.

ELKS TO MAKE DRIVE FOR S. A.

CAMPAIGN TO BEGIN THROUGHOUT ENTIRE COUNTRY

NODAWAY'S QUOTA $3000

Fred P. Robinson, Nick Sturm and R. F. Hambien, Local Committee. Expect Oversubscription.

Remember those doughnuts you read about the boys overseas getting during the war, from the Salvation Army lasses, whichwas only a small part of the work that organization was doing over there? Of course you do, and now the wheel has revolved again, and the same Salvation Army workers who were trying to keep the boys provisioned and in good spirits over there during the war, are back here in home service work, trying to keep up the morale and digestion of the poor of this country, by providing better conditions and plenty of food.

The State of Missouri starts on a Salvation Army Home Service campaign June 23rd, to raise a trifle over $700,000, for the people of this State, who are needy and deserving. Northwest Missouri's part of this is $94,550, and this must be raised in a week's time The campaign in this section of the State was launched the first of this week from the Northwest Missouri's headquarters in St. Joseph, by Ensign Bert Corliss, representative from the Salvation Army, sent here from Chicago to take charge of the campaign.

To give the Salvation Army the backing it should have, and to present the organization in a fair light to every class, the Elks lodge, all over the United States, have decided to stand back of the movement, putting in committees whenever necessary, and assisting in every possible way in putting the Drive across. It was the Elks, it can be remembered, who came to the aid of the Salvation Army during the war, when funds were needed, and gave to the workers in battle scarred fields, the equipment with which to work.

There has been an organization perfected in practically every county in the district, and all will begin soon to get the people interested in this work. The propaganda which has proven so deadly a weapon when wrongfully used, will be turned in another direction, and will be given a chance to show its powers in aiding a meritorious cause. Speeches in public places have been planned by the County Committees, and motion picture shows will advertise the Drive extensively.

The money asked for is needed, as the Salvation Army is starting a bigger work than was known before the war. It will give the families of soldiers killed in the war a chance to live right, and will open up the way for a better manhood in the coming generation. It would do no good to win a war to prevent from being annihilated by another country, and then sit still and be killed internally by improper living conditions, that undermines our manhood of today.

It is up to each county, not only to go over the top with its quota, but oversubscribe it. Ask the soldiers how they were aided by the Salvation Army, and see what a chance it is to help.

The quota for Nodaway County is $3,000. The committee in charge of the drive here is composed of Fred P. Robinson, Nick Sturm and R. F. Hamblen.

LOCAL MEN TO ATTEND HOPKINS MEETING TONIGHT

Street Oiling and Other Public Improvements To Be Discussed—Pickens To Make Address.

A number of the members of the Commercial Club have made plans to attend the "get-to-gether" luncheon and meeting tonight at Hopkins, at which plans for the oiling of the streets and many other matters of public improvement will be discussed.

Secretary George A. Pickens, of the local organization will make an address at the meeting.

It was planned to go to Hopkins in automobiles tonight, but the muddy condition of the roads makes it probable that the trip will be made on the train.

FORMER CLEARMONT DOCTOR TAKES UP PRACTICE HERE

Dr. H. S. Dowell, Just Released From Army, to Open Office in This City At Clearmont 14 Years.

Dr. H. S. Dowell, formerly of Clearmont, has opened offices in the Craig building over Montgomery-Cummins Clothing Store, and will engage in general medical practice in this city.

Dr. Dowell was recently released from service in the U. S. Medical Corps where he served ten months, entering in April, 1918, as first lieutenant and being commissioned captain in July. Prior to his entering the army he had practiced his profession in Clearmont for fourteen years.

While in the service Dr. Dowell was stationed at Fort Des Moines, Hoboken, N. J., and in the U. S. Debarkation Hospital No. 3 at New York, the largest institution of the kind in the United States.

Dr. Dowell and his family will move this week into the property now occupied by Charles McNeal and family on South Buchanan street.

ARGONNE HEROES OF 89TH ARRIVE

NODAWAY'S "FIGHTING COMPANY" OF ST. MIHIEL AND ARGONNE HOME

THREE MONTHS ON FRONT

A Year's Service Overseas Is the Record of Co. L of 356th Infantry In Last Battle of World War.

The Nodaway County heroes of the St. Mihiel and Argonne drives, members of the 356th Infantry, 89th Division, arrived in Maryville today over the Wabash and Burlington from Camp Funston, leaving there at 1:50 p. m. yesterday.

Practically all of the returned veterans were members of Company L of the 356th Infantry, Nodaway County's "fighting company." The boys were in the thick of the fight from August 5 until the day of signing of the Armistice. On that memorable day Company L fought in the front line trenches up until the last minute. In fact, the company commander of that company is said to have fired the last shot of the world war at 12 o'clock or a little later.

All of the Nodaway boys of this division endured the great strain of over three month's actual front line warfare. Very fortunately none of them were seriously injured or killed, although many of their comrades made the supreme sacrifice. It was at the Argonne that Captain A. Y. Weir of Company L was killed.

The 89th fighters sailed on the "Coronie" for France from New York June 4 of last year and landed in Brest on June 16. The company returned from France on the "Prince Frederick Wilhelm," sailing from Brest May 18 and arriving in New York May 27. Almost a year in France and three months on the fighting line is their record.

Company L participated in two of the most famous battles of the war in which the Americans engaged, St. Mihiel and the Argonne. The St. Mihiel drive was entered upon August 5 and the Argonne October 19.

Those who arrived home today are: Sergeant Ross Scott, son of Mr. and Mrs. W. B. Scott, living three miles west of Maryville; Sergeant Alvie Burch, son of Mr. and Mrs. J. S. Burch of Pickering; Sergeant Earl Pope, son of Mr. and Mrs. C. M. Pope of Hopkins; Sergeant Roy Schulte, member of Company B of the 356th Infantry; Corporal O. P. Fisher, son of Mr. and Mrs. Fisher of 810 North Mulberry street; Corporal L. L. Livengood son of T. R. Livengood of Elmo; Private James Fisher, son of O. P. Fisher of Maryville; Private William McKee of Pickering, and Private Jessie Tanner of Burlington Junction.

Private Lee Powell of Ravenwood, and Charles Saddler of Pickering.

After Merchant's Statements.

County Clerk Smith and Deputy Clerk Wright are out in the country today getting merchants' statements. Smith went to Barnard and Wright went to Burlington Junction and Clearmont.

AG. HEAD SAYS IT'S ARMY WORM

PROF. METZLER OF S. T. C. SAYS SPECIMENS ARE ARMY WORMS

FOUND ON WATSON FARM

Army Worm Found Destroying Alfalfa Field—U. of M. Formula Recommended by Metzler as Remedy.

Harvey Watson, son of Albert Watson, living three miles west of Maryville brought a specimen of worms to town late yesterday afternoon to find out what they were and how to get rid of them for they were completely destroying an eight acre field of alfalfa at a rapid rate. It had been suggested to him by some of his neighbors that the pests might be army worms, although the worm did not seem to meet their description of the army worms that they had seen several years ago. The main difference between the worms that Mr. Watson had and the ones the "old timers" had seen was that the latter resembled a caterpillar while the former lacked the fuzzy covering of the caterpillar.

The worms were taken to the laboratory of the agricultural department at the State Teachers College where Prof. L. F. Metzler, head of the Department of Agriculture, pronounced them to be very good specimens of the army worm.

The worms were from one inch and a half to two inches in length of a dark gray and dingy black color, with three narrow, yellowish stripes above and slightly darker and broader on each side, quite resembling cutworms, to which they are nearly related. The army worm is sometimes called the alfalfa worm. It is a native of the Southern states but occurs at times from Canada to the Gulf and as far west as the Rockies.

Prof. Metzler stated that the formula sent out by the Agricultural Department of the University of Missouri which was printed in yesterday's paper was as good as any that could be recommended. Of course the formula might be varied a little to suit particular conditions. Other suggested formulas are those in which Paris Green is mixed with bran mash. Compounds of arsenate are sometimes used in place of Paris Green. Should the Army worm be moving in droves a trench can be dug and, after the worms are in the trench, they can be easily killed by spraying them with pure kerosene. Prof. Metzler, also, suggested that by turnings hogs into the infested field the field could be quickly rid of a vast number of the parasites.

The formula recommended by the University of Missouri experts is as follows: "Use poison bean wash, prepared by mixing dry two pounds of white arsenic with fifty pounds of bran, then, mixing with the above the juice of twelve lemons, four quarts of cheap molasses and eight gallons of water. The above should be sown broad cast in the morning. The formula can be varied as to the total quantity used, provided as to the total quantity tained.

SEAPLANES AND FLOTILLA SHOW ALONG MISSISSIPPI

Sea and Air Machines Make Trip From Cairo to St. Louis—In Interest of Navy Recruiting.

St. Louis, June 12.—The three seaplanes flying in advance of the navy flotilla coming up the Mississippi River have reached this city from Cario, Ill. They circled three times over the downtown district and then lighted on the river between Biddle street and Eads bridge. The planes are numbered 2231, 2074 and 1619.

Lieut. H. T. Stanley, in command, said the three planes made the trip in 1 hour and forty-five minutes. On the journey the planes maintained an altitude of between 2,500 and 3,000 feet. The anti-submarine flotilla, which is on its way here in the interest of naval recruiting, left Cario about daylight yesterday, Lieut Stanley said. The planes passed the boats.

Miss Cummins Home.

Miss Marguerite Cummins, who has been attending Notre Dame College, Notre Dame, Ind., arrived today to spend the summer with her father, Thomas A. Cummins.

Newt Morgana of Parnell, has returned from a trip to Wyoming

BRITISH TROOPS BEGIN OFFENSIVE ON PETOGRAD

Report Says Troops Are Now Within 185 Miles of Russian Capitol.

Stockholm, June 12.—The British troops on the Murmansk front of northern Russia have begun an offensive and are advancing on Petrograd. They ahve reached Petrozevonsk, capital of the government of Ilontsk, 185 miles northeast of Petrograd it was reported by a Helsingfors dispatch today.

STEAMERS COLLIDE 100 MILES OFF COAST IN FOG

Lives of 600 Soldiers Endangered When Trop Transport Strikes Other Vessel—Report All Safe.

New York, June 12.—The lives of 600 were endangered when the big liner, Graf Wildersee, now a transport, was rammed by the steamer, Rennoni, in a dense fog 100 miles off the coast early today. Two transports were rushed to the side of the sinking Waldersee a few hours after the collision was reported by wireless. All the passengers and crew were taken off and the Waldersee is being towed to port.

BE ON YOUR GUARD, FOLKS TOMORROW IS FRIDAY, 13

Old Man Fate Will Have His Inning Tomorrow.—Rabbitt's Feet and Horseshoes To Be Popular.

If you see a man walking down the street tomorrow with his pockets loaded with horseshoes, do not put in a call for the sanity doctor—he's probably only playing safe, for tomorrow is Friday the thirteenth.

Weather prophets and other "wise ones" say there is nothing out of the ordinary scheduled for tomorrow, but it is whispered about town that many lucky stones, rabbit's feet, and other so called "charms" will be pressed into service to foil Old Man Fate.

S. R. LUCAS HEARS OF SON'S TRAGIC DEATH

Harry Lucas Run Over by Truck in Los Angeles—No Funeral Arrangements Yet.

Samuel R. Lucas of the Martin Flats received word from his daughter, Mrs. O B. Evans of Los Angeles, Calif., that his son, Harry, was accidently killed in that city yesterday when he was run over by a truck. No other particulars of the accident were mentioned in the telegram.

Harry Lucas was employed as an interior decorator. Mrs. Evans will accompany the body to Maryville, expecting to arrive here Sunday or Monday. As yet, no funeral arrangements have been made.

Several years ago Harry Lucas was in the grocery business of this city.

Harry Lucas was born in Indiana, Pa., in 1869, and came to Maryville with his parents in 1885. He lived in this city until about fifteen years ago.

POSTMASTER EXAMINATION

One to Be Held Here for Postmaster at Conception Junction.

Eldon Irvin, secretary of the Civil Service Commission for this county, received word this morning that a civil service examination will be held in Maryville on July 12 for postmaster at Conception Junction. This office is a fourth-class office. Henry J. Berg is at present postmaster at that place.

Mrs. Bellows Here.

Mrs. Harold Bellows and little daughter, Helen Marie, of Chicago, came this noon to visit her parents, Mr. and Mrs. J. R. Brink, her sister, Mrs. R. P. Hosmer, and Mr. Bellows' mother, Mrs. George P. Bellows. Mrs. Brink and Mrs. Hosmer and daughter, Margaret Louise, went to St. Joseph yesterday afternoon to meet them.

Mrs. Herman Clarkson and children of Macon, who have been visiting at the W. A. Burris, G. B. Holmes and O. L. Holmes homes, left yesterday for their home

COMPLICATION IN PEACE SITUATION

GERMANS ATTEMPTING TO TAKE ADVANTAGE OF ALLIED DISSENTION

LABOR PROBLEM SERIOUS

Failure to Back Leaders Policies by Allied Peoples Gives Opportunity For Hun Propaganda.

Paris, June 12.—The general peace situation has become complicated as a result of rumors which gave rise to dissensions among certain representatives of the allies and associated powers. At the same time it is realized by impartial observers that the Germans are taking advantage of a delicate labor situation in Europe to create the opinion throughout the world that they are unwilling to sign the treaty.

Paris, June 12.—It is obvious that never before in the world's history has there been so great a necessity for a real league. The "Big Four" have been torn by differences of opinion as a result of months of labor, and, whether with or without cause, the great quality of a positive and immediate decision has seemingly disappeared since the envoys of the Allies and the Associated Powers gathered in Paris.

An International News Service correspondent personally discussed with leaders of the delegates the exact situation, and as a result of his observation and confidential communications it is possible to describe the facts as follows:

1. The campaign directed against Wilson's policies in Washington and throughout the United States has materially weakened his influence among his associates. The belief is constantly growing in Paris that the failure of President Wilson to keep his spokesmen in Congress informed as to his intentions was a most serious mistake.

2. Lloyd George after insisting on most drastic peace terms has modified his views as a result of pressure that has been brought to bear by a group of international financiers having their headquarters in London and New York This is taken by Germany as an indication of weakness.

3. Labor unrest in Great Britain and France has been recognized in Germany as an indication of war weariness and has encouraged German leaders into defence.

WOMAN SUFFRAGE BEFORE LEGISLATURE JULY 2

Special Session of That Body Called by Governor Gardner to Act on the Suffrage Amendment.

Jefferson City, June 12.—Governor Gardner today issued a call for an extra session of the Missouri Legislature for July 2 to ratify the woman's suffrage amendment just passed by the national congress.

EX-SENATOR DIES TODAY.

Excelsior Springs, June 12.—Ex-Congressman James A. Tawney of Minnesota, died here this morning of heart disease.

BATLE IMPENDING NEAR JUAREZ.

El Paso, June 12.—A battle to the east of Juarez between the forces of Villa and federal soldiers is believed to be impending today. Five hundred well armed federal soldiers left Juarez last night.

Mrs. Carrie Rogers returned Tuesday night from a visit in southwestern Missuri and in Aurora with a sister. Her daughter, Mabel, will spend the summer in Aurora.

WEATHER FOR TODAY

Partly cloudy tonight and Friday, probably scattered thunder showers; continued warm.

NOTICE!

All owners of automobiles, and all other vehicles and persons driving same, are notified that the Marshal and Police of the city of Maryville, Missouri, are instructed to arrest any and all persons found driving any vehicle on a public street on or after June 15th, 1919, on which the city license tax has not been paid as required by Ordinance No. 806 of the City of Maryville.

"We have no possible right to break suddenly into the middle of a negotiation and demand from the president what instructions he has given to his representative. That part of treaty making is no concern of ours." Teh quotation is from Senator Henry Cabot Lodge, Republican leader in the senate. He was speaking in the senate on Jana. 24, 1906, while that body was considering a resolution calling upon President Roosevelt for information as to foreign negotiations then under way. If the senator was right then he is wrong now; if he is right now he was wrong then.—St. Joseph News-Press.

FIFTEEN HUNDRED FOR A CALF

Jim Allen, the Big Hereford Cattle Man Sells Forty Head To Go To a W Ranch Near Kaysee, Wyo.

Among forty head of pure bred Herefords sold last week by Jim Allen, the well known breeder residing five miles northeast of Hopkins, was a bull calf, Real Fairfax, that brought the handsome sum of $1,500. This calf is only 14 months old and is a nephew of Richard Fairfax, who sold this spring for $50,000. The other cattle sold by Mr. Allen consisted of cows and calves and brought very satisfactory prices, the check handed to Mr. Allen being for as much as two or three car loads of ordinary cattle would bring. Jim has a splendid herd and his many friends are pleased to see him prosper. The man who bought the consignment just mentioned is a relative of George Harvey, south of town. Babson is his name and he is a Chicago business man but owns the J. U. Bar cattle ranch near Kaysee, Wyo., to which point the cattle were shipped. It will be remembered that Mr. Babson once owned a farm west of Hopkins, operated by Mr. Harvey.—Hopkins Journal.

AN ENEMY OF WOMANHOOD.

The complexion, digestion and almost the complete personality of woman are dependent upon health. Woman's ills are her great enemy, as they cause bad complexion, dark circles under the eyes, headache, blackache, nervousness, sleeplessness, dragging-down pains and the blues, and often totally unfit her for a companion. The great American remedy for such conditions is Lydia E. Pinkham's Vegetable Compound, which has been restoring three generations of ailing women to health, and may be relied upon with perfect confidence.—Adv.

Result of Examination.

Miss Eva Davis received a report this morning of the examination held a week ago Monday night in the Sunday school rooms of the Christian church for the Community Teachers Training Class. The papers were sent to St. Louis for grading and it was announced that two out of the eighteen teachers taking the examination failed.

Mrs. Wolfers Slightly Burned.

The life of Mrs. E. C. Wolfers, Sr., was endangered last Thursday when she touched a match to one of the burners of the gasoline range. By reason of a leak in one of the burners, gasoline had accumulated in the pan beneath, and was ignited as soon as the match was struck, the flames almost enveloping Mrs. Wolfers. Miss Farquar, who is staying at Woodlawn exercised great presence of mind by preventing Mrs. Wolfers rushing into the open as she tried to do, but instead caught and threw part of her own clothing around her, smothering out the flames, and Mrs. Wolfers escaped with a few slight burns about the face and hands. The gasoline stove has been tabooed and an electric range will now serve in its stead at Woodlawn.—Hopkins Journal.

S. P. SPENCER FOR PRESIDENT?

St. Louis, June 11.—Five thousand letters have been sent out to Republican workers in Missouri for an expression of opinion on the popularity of Selden P. Spencer, United States senator, as a candidate for president of the United States. This is the first step to be taken in a state-wide campaign to place Spencer in the field as a candidate for nomination for the presidency in 1920. A great many replies to the letters have already been received, saying, in effect, that Republicans in the state would support the senator if he will permit his name to be used.

MARYVILLE MAN'S LUCKY FIND.

Will Interest Readers of the Democrat-Forum.

Those having the misfortune to suffmer from backache, uninary disorders, gravel, dropsical swellings, rheumatic pains, or other kidney and bladder disorders, will read with gratification this encouraging statement by a Maryville man.

J. N. Bryan, retired farmer, 222 Eleventh St., says: "At one time I was having trouble from my back and kidneys. I had an intense soreness through the small of my back which pained when I tried to bend over or straighten up quickly. My kidneys acted too frequently and this made me weak. I saw Doan's Kidney Pills advertised and bought some from Love & Gaugh's Drug Store. From the first, I had relief and as I continued using them I was benefited in every way. It has been quite a while now since I have needed to use Doan's, so I know the benefit is lasting."

Price 60c at all dealers. Don't simply ask for kidney remedy—get Doan's Kidney Pills—the same that Mr. Bryan had. Foster-Milburn Co., Mfgrs., Buffalo, N. Y.—Adv.

KELLOGG IN GRAIN COMPANY

Skidmore Man in St. Joseph Company, Which Was Recently Organized.

The Kellogg-Huff Grain Company, capitalized for $15,000, has filed articles of incorporation in the office of the recorder of deeds in St. Joseph. James F. Kellogg, Skidmore, holds 30 shares of stock; Walter L. Lingle, Bethany, 35 shares; Carman O. Graham, Bethany, 35 shares; B. Ward Welsh, Laclede, 10 shares; Warren M. Huff, St. Joseph, 20 shares, and D. L. Willis, St. Joseph, 20 shares. The company will have its headquarters in St. Joseph.

J. F. Kidd of Bedison, spent this morning here on business.

NEEDS TYPISTS AT WASHINGTON

The Stenographer and Typist Situation Is Acute at Capitol City.

The stenographic and typist situation in Washington is acute and seems to grow worse instead of better, according to an announcement made by the civil service commission to Eldon W. Irvin of this city. Some branches of the service are still calling upon the commission for certifications of large numbers of eligibles; for example, the Bureau of War Risk Insurance has asked for 150 stenographer-typists at $1,200 a year and 375 typists at $1,100 a year for immediate use. The need for bookkeepers is also urgent. The Commission also advised that housing conditions in Washington are considerably improved at this time.

DRASTIC CAR SALE LAW SIGNED BY GOVERNOR

The New Measure Is Intended to Put a Real Check to the Increasing Number of Thefts.

"The large number of thefts of automobiles being committed throughout the state creates an emergency within the meaning of the constitution and this act shall be in effect from and after its passage," concludes the bill recently signed by Governor Gardner which should prove a check to motor car thefts.

The new law in effect makes the certificate of registration, given by the secretary of state when the state license tags are issued, a bill of sale. The law further requires the name and address of the seller of the motor car be supplied the secretary of state, who shall keep a record of it. Fines are provided for the violation of this act. Any person who shall change a certificate of registration, or make a bogus one, is subject to a fine of $100 to $500 and imprisonment of from six months to one year.

The section of the new law regarding the vendor's notice of sale:

In order to make valid or legal a sale or transfer of any motor vehicle registered in accordance with the provisions of this act, the vendor shall, in the presence of an officer qualified to take acknowledgments to deeds, indorse his name on the back of said certificate of registration described in paragraph 3 of section 5 of this act, and the vendee shall also, in the presence of the vendor, write his own name, and to both of said names the said officer shall sign his name as a witness and receive the sum of twenty-five cents therefor; and thereupon the vendor shall deliver to the vendee or transferee the said certificate of registration and which shall be the evidence of the vendee or transferee of his ownership of said motor vehicle, and it shall be the duty of such vendee or transferee, upon request of any peace officer, to exhibit to such officer the said certificate of registration. Upon such sale of a motor vehicle the vendor shall give notice thereof, with the name and address of the vendee, to the secretary of state and the vendee shall, within five days after such sale, give notice to the secretary of state of such sale, also the business address of the previous owner, if known, the number under which the motor vehicle is registered and the name, county and business address of the vendee, and upon the payment by the vendee of a fee of fifty cents the sescretary of state shall note upon the registration books or index such change in ownership. Any sale or transfer of such motor vehicle without complying with the provisions of this section shall be fraudulent and void, and the vendor and vendee shall each be subject to a penalty not exceeding $50, to be recovered by suit instituted in the name of any officer or informer, and the penalty so recovered shall become a part of the school fund of the county; provided, when the suit is in the name of a person other than an officer, plaintiff shall be entitled to one-half of such penalty; provided, if such certificate of registration be lost or destroyed then upon satisfactory proof that the person applying for a duplicate is lawfully entitled thereto, the secretary of state shall be authorized to issue the same.

TO RECORD FARM STUDENTS

College of Agriculture Will Keep Complete Account of School Activities.

Columbia, June 10.—A complete record of every student and graduate of the College of Agriculture of the University of Missouri, including photographs, is being made by E. H. Hughes, assistant to the dean of the College of Agriculture.

On one side of a large card will be a complete record of the student's work prior to entering the University and a blank space in one corner for his record after leaving.

This will serve to keep the school in touch with each alumnus as well as to keep the Alumnus in touch with the school. The University of Illinois has a record of this kind with a photograph of every student. It is now known by Illinois students as "the rogues' gallery."

FROM INDIA TO CHURCH MEET.

St. Louis, June 10.—Although eighty-five years of age, Mrs. Lois Lee Parker, widow of the late Bishop Edward W. Parker, of India, came all the way from that country alone to attend the jubilee of the Woman's Foreign Missionary Society of the Methodist Episcopal Church, of which she was one of the founders. Mrs. Parker has been in missionary work in India sixty-one years and is the sole survivor of that small group of women who started the missionary movement half a century ago.

MOISTURE REQUIREMENTS OF WHEAT FOR MILLING.

At the beginning of the process of milling, the miller gives much consideration to the question of the moisture content of his raw material. He knows that in order to secure the highest yields of flour and to insure its greatest purity, the pericarp or outer coatings of the wheat kernel at the time of grinding must be of a certain toughness, and the endosperm, or inner part, of a certain mellowness. The degree to which these properties are possessed by the different parts of the kernel is influenced largely by the amount of moisture present.

Wheat when received at the mill is seldom, if ever, in the best condition for milling, its moisture content being too high, too low, or not properly distributed throughout the kernel. To acquire the right moisture content for the outer and inner parts of the kernel, thereby insuring the best possible milling condition for different wheats, requires the application of various methods of tempering. These methods may consist of a single, or successive, or of combined applications of water, heat, or steam, working through a period of time, ranging from a few minutes to as much as 36 hours, in order that the moisture may be properly distributed within the kernel.

Dry climates and dry seasons naturally produce wheat of low moisture content, and damp climates and wet seasons produce wheat of high moisture content. There is , moreover, often considerable range in the moisture content of wheat during any given season and in any one locality. Moisture determinations of samples obtained from more than 5,000 cars of wheat, which were made by the United States Department of Agriculture at Kansas City, Mo., during the years 1910 to 1914, inclusive, showed a range in the content of that factor from 7.4 per cent to 22 per cent. The fact that the moisture content of wheat may vary so greatly is evidence that the problem of properly tempering wheat is a complicated one.

STUDY MERIAM SYSTEM

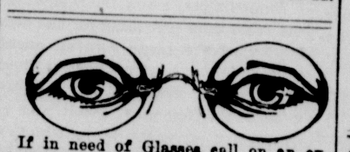
Oklahoma Teachers in Modern School Observe New Methods Used at State University.

Columbia, June 10.—Seven teachers in the public schools of Okmulgee, Okla., were in Columbia recently to observe the University Elementary School and its methods. They came here at the suggestion of H. B. Bruner superintendent of public schools of that city, formerly of the University of Missouri, who is interested in trying new methods of public school systems.

The young women who came to observe Prof. J. L. Meriam's work will teach in the new Woodrow Wilson school just built in Okmulgee. The elementary School of the University of Missouri is widely known throughout the country on account of the novel methods used in teaching.

"Doctor Meriam's system is wonderful," said Miss Theodora W. Ellis, who is to be principal of the Woodrow Wilson school. "We shall have to modify some of the methods used here to conform to the system of the schools in our city, but we are going to do all we can to break away from hard and fast rules."

Now is the time to buy screens and screening at the Howard Wray Hardware Co. 10-12.



If in need of Glasses call on an exclusive Doctor of Optics, who is competent. JOHN LE GRAND BAKER is Maryville's exclusive efficient Doctor of Optics. 2 blocks west of Postoffice.

Time Brings Happiness With The Dawn

The Coming of Baby Marks the Advent of a Glorious Future.

Scientists say great stress should be laid upon the remarkable influence which the mother's happy pre-natal disposition has upon the health and future of the generations to come.

There is a splendid preparation women for over half a century have applied before the stork's arrival, known as Mother's Friend. This is a most grateful, penetrating remedy that at once softens and soothes the myriad of broad, flat abdominal muscles under the skin of the abdomen. By its regular use during the period the nerves, tendons and cords are relaxed and there is an absence of nausea, bearing-down pains, strain and general discomfort more often than otherwise experienced when nature is unaided.

By the use of Mother's Friend night and morning the muscles relax with ease when baby comes, the time at the crisis is shorter and pain and danger is naturally avoided.

PUT OUT FLAGS, SAYS GARDNER

Governor Urges Patriotic Services for Flag Day, June 14.

Jefferson City, June 12.—Governor Gardner issued a proclamation yesterday urging the people of Missouri to observe Flag Day, June 14. In part, the proclamation reads:

I urge the display of the flag in the home, the place of business, over all public buildings and the holding of a patriotic service in every community of the state on this day. Flay Day affords an opportunity for us as individuals to renew our vow of love and loyalty to the Nation and the flag which symbolizes our national character. We should, in public assembly, renew our faith in the principles of liberty, of which we are the champions, and reconsecrate our lives and our all to their maintenance.

I have an abiding faith in both the wisdom and loyalty of the American people. They will not forsake the high ideals so exultantly expressed during the war and for which they sacrificed and our soldier boys fought.

EXPECT $90,000 FOR BOY SCOUTS IN ST. LOUIS DRIVE.

St. Louis, June 11.—The active campaign to raise $90,000 for the Boy Scouts in this city by tomorrow night is in full swing, with 800 men and women canvassers out. Leaders feel confident St. Louis' quota will be attained.

The women are devoting their time to work in the best residence districts and in downtown office buildings and stores, while the men have selected a list of 1,000 firms from whom large subscriptions are being sought.

Obituary.

Mr. and Mrs. Frank Bebb, prominent residents of Carpenter, Wyo., mourn the death of their little daughter, Pauline, who, after an illness of only five days, with inflamation of the bowels, passed away on Monday, June 2, 1919.

Physicians and a trained nurse were in constant attendance at her bedside, but their skill availed naught, and the little one, her mission on this earth ended, passed on to the new life, leaving her parents and her two sisters bereft.

Myrtle Wyoma Pauline Bebb was aged one year, six months and twenty-one days. She was an especially attractive child and had endeared herself to everyone in the community by her every-ready smile and cunning baby ways.

The sympathy of a host of friends was attested by many helpful acts and an abundance of beautiful floral offerings.

Funeral services were held in the M. E. Church on Wednesday, at 11 o'clock a. m., with Rev. E. L. Dryden officiating. Interment was in the Carpenter cemetery.

"In a beautiful cloud we thought we saw
Our baby's smiling face;
And a whisper, low, seemed to say to us—
'Oh, Heaven's a happy place!'

So now as we travel our earthly way,
What matters the sorrow or care?
Heaven waits—and we know 'tis a happy place,
Because our baby's there."

Turn On the Light!

By turning on the lights morning and night, poultrymen have found a way to make the hens lay a lot more eggs than they used to.

The COUNTRY GENTLEMAN

is turning on the light, too, these days—lights on better farming methods, better marketing plans, better get-together ideas, better homes. And in this section its light is shining brighter and brighter—for it's reaching more friends every week.

No farmer makes any mistake when he subscribes for THE COUNTRY GENTLEMAN. When he gives me a dollar and says: "Put my name on the list for a year's subscription" he gets the fifty-two biggest and best farm-paper issues he ever saw. Why, farmers have found that single articles have made or saved them a hundred dollars! Yet for only one dollar you can know THE COUNTRY GENTLEMAN, just as a lot of other progressive farmers hereabouts know it. Once you read it you'll never be without it again. Your subscription will start with next week's issue, if you—

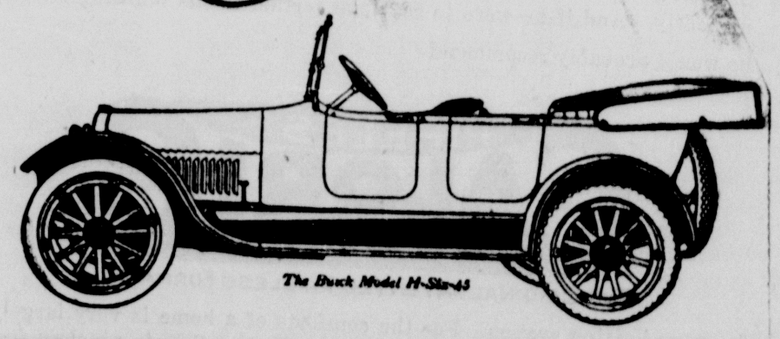
Buick

EVERYBODY KNOWS VALVE-IN-HEAD MEANS BUICK



THE Buick Valve-in-Head motor is designed to get the most out of every gallon of gasoline—and does it.

In this motor the cylinders have no "alcoves" or side-pockets. The full force of the explosion is received by the pistonhead,—where it means *power*,—increased vigor, lessened wastage—conserved energy.

And these cylinders, lacking side-pockets, are quickly and thoroughly cleared of dead gas after each piston stroke—insuring a capacity intake of fresh gas for each explosion.

RECORD REFUTES G.O.P. SLANDER

ATTY GEN. PALMER REVIEWS DEMOCRATIC ACCOMPLISHMENTS.

FOUGHT WAR TO VICTORY

Leadership of Democratic Party Unsurpassed During Great Trials Through Which Nation Has Passed.

Chicago, Ill.—The last six years have been the most momentous in the life of the American people and in the history of Christian civilization, declared Attorney-General A. Mitchell Palmer in an address before the Democratic National Committee at its recent meeting in this city. And not the least significant and important achievements of these years has been the manner in which the old slanders against the Democratic party have been refuted, said Mr. Palmer. So long and so often have these slanders been repeated by those who sought political profit by their circulation that they became almost a tradition of our political life. Mr. Palmer continued:

In the great court of public opinion, with the Republican party on trial for slander, the defendant cannot now plead the truth in justification; for the achievements of the Democratic party during its six years of power, both in the domestic field and in the larger field of the world's affairs, have shown that every charge made against it was without foundation.

They said the Democratic party lacked the experience and training in statesmanship, which made for constructive leadership in solving the complicated problems on the far-flung line of our governmental activities. We produced the acknowledged leader of the liberal thought of the world, under whose standard gather the tried statesmen of every civilized nation, holding up his hands, as with clear vision and superb courage he leads the peoples of the world in their victorious charge against the arch enemy of civilization.

They said we were a free trade party, willing to sacrifice the prosperity of the country to an economic theory. We answered with a tariff law built upon the principle of fair competition, which American industry, self-respecting and courageous, is willing and able to meet and under which, as never before, the American producer has successfully entered the markets of the world and established a great balance of trade in his favor.

They said we were incapable of providing for the revenue needs of the Government. We forced the income Tax Amendment to the Constitution and under it levied taxes upon the income of idle wealth and the excess profits of corporations and individuals who, without such a check, would have scandalized the nation with the enormous profits made in the unusual conditions of war time.

They called us insincere in our profession of interest in labor. It was not till a Democratic majority appeared in the House of Representatives that the appeal of labor for a special enactment of the Government to guard its interests was heard and answered. * * * We passed a Workmen's Compensation Law and extended the eight-hour day. We created a Children's Bureau and stopped the exploitation of children in labor.

They said we were inimical to the interests of the farmer. A Farmers' Free List bill, though vetoed by President Taft, afterwards found its way into the Underwood tariff law. We perfected the system of countrywide rural delivery of mails, put the farmer at the city's gate by the parcels post, inaugurated the system of Federal aid for building highways, gave him a savings bank in every post office, established a rural credit system with the Federal Land Banks as a guaranty of proper financial support to agriculture in the future.

They said we were the friend of unsound money and the enemy of legitimate business. We relegated to the scrap heap of political and economic blunders, that archaic and inadequate system of finance whose iniquities and failures the Republican party had condoned for forty years, and built upon its ruins the greatest banking structure ever erected by mortal man, for the Federal Reserve system is today the model of the entire financial world upon which no political party, however jealous of our achievements, will ever dare to lay its impious hand.

And the one great slander which they have been fond of repeating since the days of the Civil War, was that we could not fight a war. It was said that the Republican party was the historic war party of the nation, and the Democratic party might have some value in opposition, but to trust it to prosecute a great war would be national suicide. And those who fed this slander to the American people were the leaders of the party which blundered through the Spanish-American War.

When the time came for the nation to arm, the young men went to the camps and across the seas, while behind them on every side, there were mobilized the great supporting forces from capital in finance and industry, from labor in mill and factory, from the soil on farm and garden patch. These were ready and they made an army of a hundred million strong. They were ready because their country had prepared, while the Democratic party was in power, by the new system of taxation, the new system of finance, the new consideration for labor and the new support to the farmer. These were the measures which marked the real preparedness of the nation for the great war. Without them, the magnificent courage of two million men on the Western front would have been but reckless stage play; disaster would have come to American arms and ruin to Christian civilization.

Must we forever sit silent under partisan charges of waste, extravagance or mistakes, many of them the necessary accompaniment of war, without any credit for the great and overwhelming result which we achieved? Let history begin to tell the truth now and it will say that the common courage of our men and women, the combined effort of capital and labor, the joint support of city and farm, all were welded into an irresitable force by a leadership never surpassed in the history of parliamentary government. And that was the leadership which the Democratic party gave to the world when it joined its practical achievements with its high ideals behind Woodrow Wilson.

Would You Farm Without a Plow?

Some day the question "Would you farm without a truck?" Will sound just as foolish.

The farm truck will be as common as a wagon—just as an auto is now as common, or more so, than carriages used to be.

The SANDOW Truck is especially well adapted to farm work, because it is made in several sizes that combine strength with lightness, every size being well over-strength to take care of over-loads, and because it is equipped with saving devices that make it the most economical in operation.

The SANDOW is made in 1, 1¼, 1½, 2, 3½ and 5 ton capacities, of which the 1, 1½ and 2 tons sizes are exceptionally well adapted for farm work in Northwest Missouri.

The farmer who buys a SANDOW this season will be just a little ahead in modern farm equipment, besides getting the advantage of the pre-war price which still prevails. The SANDOW has been able to hold truck prices down until it is today the greatest truck value ever offered to farmers.

For example specifications of the size you want, and demonstration of the truck, ask the

And Its Good Advice

"Build now" is the advice that Uncle Sam is sending out through his Department of Labor. And he says to build well and to build permanently. And if he were to continue further in his building advice, he would probably recommend

PIPELESS CALORIC FURNACE
TRADE MARK TRADE MARK
THE ORIGINAL PATENTED PIPELESS FURNACE

for your heating system. For the comforts of a home is very largely dependent upon a satisfactory furnace. With a Caloric pipeless furnace you can heat your entire house at less cost than only a part of it with stoves. It requires only one register on the ground floor of your home, and through this every room is made warm. It has numerous exclusively patented features that make it unequalled for heat capacity, economy and convience. Easy installed in one day in any house new or old. It burns any fuel—there is no smoke, coal, gas or dirt in the house—no heat wasting, expensive pipes in the walls or cellar.

Do not confuse the Caloric with other pipeless furnaces. It is not merely a furnace without pipes, but is built on an entirely new principle in furnace heating. Its manufacturers have put into it the experience of ninety-nine years in business, and stake their reputation on its ability to meet every claim.

Come in and let us show you this great furnace and tell you how it can be used in your home to advantage.

"HOME ASSOCIATION" FOR ST. LOUIS WORKING CLASS

To Build and Sell Homes To Wage Earners at Low Rates—Congestion the Cause.

St. Louis, June 12.—At a meeting of St. Louis business men at the Chamber of Commerce here, authorization was given for the organization of an association capitalized at $1,000,000 to build and sell homes to wage earners and salaried employees at low rates. The proposition will prove a great thing for the working men.

Jackson Johnson, president of the Chamber of Commerce of St. Louis, called the conference for the purpose of discussing housing conditions in this city.

Johnson directed a committee be named to perfect plans for the organization of the association.

Immediately after the adoption of the resolution providing for the organization of the home owners' association, which was introduced by Thomas W. Bennett, president of the Mortgage Trust Company, a bill was read by former Governor Folk, which will be presented to the state legislature, recommending that tax exemption be granted on the securities of the association similar to the exemption granted the Farmers' Loan Association.

Before reading the bill to the conference, Folk heartily endorsed the plan for building homes for working men. He said that the poor housing conditions cause disorder and disregard for law. He said that congested living conditions fostered anarchy and Bolshevism, and that a man would fight for his home, but would not fight for his boarding house.

One of the principal questions discussed by the conference was the reconstruction of homes in the so-called "blighted" district east of Grand Avenue.

SCHOOLBOY, 31, CHARGES ..... VET CALLED HIM SLACKER

Portland, Me., June 10.—In by far the oddest case heard in the Municipal Court here for many years, George A. Emery, an eighty-year-old Civil War veteran, was the defendant on the charge of heckling Charles W. Barker, the thirty-one-year-old junior of the Gray High School, as a "slacker". The "schoolbay", who stands six feet

TO TRAIN FOR FOREIGN TRADE.

Bureau of Education Is Preparing Bulletin on Study of Modern Languages.

Columbia, June 12.—Specialists in modern languages in several universities of the country are aiding in the preparation of a bulletin on "Training for Foreign Service", to be issued by the Bureau of Education of the Department of the Interior. Prof. H. B. Almstedt, of the department of Germanic languages of the University of Missouri, has been asked to contribute an article to the bulletin on the study of German and Dutch.

The purpose and object of this bulletin, as outlined by the Bureau of Education, is to create common thinking and action in the colleges in the establishment of foreign service training courses. Business men and advanced educators believe that proper preparation in the modern commercial languages is one of the basic essentials in this type of instruction.

As the Germans will make a strong bid for foreign trade after the signing of the peace terms—it is reported that they are now sending trade emissaries to South America and other countries—it is believed essential from a commercial standpoint that German, along with other modern languages, should be studied in order that German competitors may be sent on the same basis of equipment.

From a commercial point of view alone, it is declared, German as well as Spanish, French, Italian, Russian, and other foreign languages should be studied widely in this country.

With the elevation of this country to the front rank of world powers comes the grave responsibility of training comprehensively and efficiently for foreign service. The representatives of this county, it has been pointed out by experts, whether they represent the government or stand sponsors to great commercial or industrial enterprise should reflect honor and credit on the country.

MISSOURI CHIROPRACTIC ASSN. PAYS $1,815 FOR LEGAL PRACTICE.

Jefferson City, June 12—According to an affidavit filed with the secretary of state here it cost the Missouri State Chiropractic Association a total of $1,815 to pass the bill legalizing practice of chiropody in the state of Missouri.

The affidavit was filed by William C. Hunfeld, of Franklin County, president of the association.

Of the amount named $1,000 was paid to Charles A. Smith, as attorney's fees and $565 was paid for Smith's personal expenses while in this city, putting the bill through. Printing, postage and stenographers cost $250.

This is the only expense statement filed by any of the paid lobbyists who operated during the recent session of the 50th General Assembly.

MOTOR TRUCKS MAKING CROSS COUNTRY TOUR.

St. Louis, June 12.—Fifty motor trucks of varied makes have started from this city on a 400-mile expedition, under the direction of the St. Louis Automobile Manufacturers Association The trip was planned to show the transportation possibilities of motor-driven vehicles, and the economy in their use for all hauling purposes.

Wentzville, forty-four miles away, was the first stop. The round trip includes stops at Troy, Louisiana, Hannibal, Quincy, Camy Point, Clayton, Mount Sterling, Rushville, Beardstown, Virginia, Jacksonville, Roadhouse, Jerseyville, Alton. The trucks will return to this city Friday.

The tour, one of the first of its kind in St. Louis territory will be followed by similar demonstrations, in every section of the country. No attempt at great speed is being made, steadiness of operation being to advantage emphasized. Several of the larger companies last year made across the country tours, carrying military supplies. These runs, proving the great possibilities of motor-transportation, were forerunners of the present expedition.

THE "HOMBRES" LIVED HIGH.

Junction City, Mo., June 12.—What a bunch of fourteen Mexicans working on a railroad, were arrested and taken to jail the city officials had no idea that Mexican customs would be transported to this town, so far away from the border. A short time after the arrest a crowd of Mexican women and children bearing fruit, tobacco and food went to the jail and wanted to feed the prisoners.

The police were mystified until an interpreter explained that the custom in Mexico was when a man was arrested for his relatives to provide the food. The "hombres" thought the same plan prevailed here.

However, the city provides each man in jail with two meals a day, so with two big meals from the city and what their relatives brought the Mexicans lived high during their incarceration.

Mozingo Valley Church Notes.

The third quarterly conference will be held at Pickering Saturday afternoon at 2 p. m. Rev. D. F. Stiles of Hopkins, will preach at Mozingo Valley Sunday morning and Rev. C. S. Dayhoff Sunday night. The basket dinner has been postponed.

Social, Clubs Churches

Birthday Party.

Misses Grace, Helen and Gladys Dragoo and Lowell Andrews motored to Bedford, Ia., Tuesday to attend a birthday party at the home of Mr. and Mrs. William Friend, given in honor of their daughter, Miss Olevia Friend, and their nephew, Lowell Andrews. About forty invitations were issued.

Marriage Announcement.

Mr. and Mrs. Alex Holt announce the marriage of their daughter, Fern L., to James A. Sweney of Rexville, N. Y., Tuesday, June 10, in Omaha. Mr. and Mrs. Sweney left for Nenzel, Neb., where they will make their home The groom had been in the forestry service and had served overseas with the 20th Engineers.

Penelope Club.

The regular meeting of the Penelope club was held yesterday afternoon at the home of Mrs. S. J. DeArmond on East Third street. The afternoon was spent in needle work, after which refreshments were served by the hostess, assisted by her daughter, Miss Blanche DeArmond. Mrs. George Custer of Kansas City, Mrs. John Dawson and Miss DeArmond were guests of the club.

Serial Starting at Electric.

Beginning tomorrow night the Electric theater is opening a serial photoplay entitled "Perils of Thunder Mountain." There are 15 episodes to this serial, one to be run every Friday night. The scenes are laid in the north where snow and beautiful scenery are plentiful. It is a picture full of life and action. Antonio Moreno and Carl Holloway are cast in the leading parts.

Supper for Husbands.

The members of the Woman's Bible class of the Presbyterian church entertained their husbands and a few guests at a 7 o'clock supper last night in the church parlors. Miss Lucie Davis was selected to teach the class, succeeding Mrs. Florence Staples, who has gone to Kansas City to make her home. The visitors for the evening were Rev. and Mrs. S. A. Coile and Miss Davis.

Mrs. Wells Hostess.

Mrs. Harry Wells was hostess to the Monday Afternoon and Saturday Night Bridge clubs yesterday afternoon at the home of Mrs. J. L. Felix on West 7th street. On account of the inclement weather the meeting was changed from the country home of Mrs. Wells to the Felix residence. Mrs. Marve Curnutt received the favor for the Monday Afternoon club, and the Saturday Night club's prize was awarded to Mrs. Cleve Funk. The guests for the afternoon were Mrs. W. A. Rickenbrode and Mrs. C. D. Koch.

Mr. Sanders to Wed.

Announcement is made of the approaching marriage of Walter J. Sanders of St. Joseph and Miss Isabelle Smith, secretary of the Y. W. C. A. at Long Beach, Cal., during the last two years. The wedding will take place Wednesday, June 18, at the home of the bride-elect's brother, James F. Smith, in Eminence, Ky. Following the ceremony Mr. Sanders and his bride will leave for a trip to the Great Lakes, and after August 1 they will be at home at 1801 Jule street, St. Joseph. Mr. Sanders is treasurer of the Combe Printing and Lithographing Company of St. Joseph, and is well known in this city.

Robb-Cooper.

Miss Lula Octavia Robb and Frank Oval Cooper, both of Sheridan, were united in marriage yesterday in St. Joseph, Rev. Wentworth, pastor of White Temple Methodist church, officiating. The bride taught at the Luteson school, near Sheridan, the past year, and Mr. Cooper, upon his release from military service, finished the school term at Gaynor. Mr. and Mrs. Cooper will make their home on a farm near Gaynor. Miss Ocie Robb, a student at the State Teachers College, and Miss Mary Robb of Sheridan, sisters of the bride, and County Superintendent Bert Cooper, a brother of the groom, attended the wedding. Mr. Cooper is the son of B. H. Cooper of Gaynor.

Evans-Crom Marriage.

Miss Mildred Evans, daughter of Mr. and Mrs. L. H. Evans and Frank J. Crom of Pierce, Colo., were married this afternoon at the residence of Rev. and Mrs. C. C. Harris in Creston, Ia. Rev. Harris, a former pastor and close friend of the Evans family, performed the ceremony. The young couple were accompanied to Creston by the bride's parents and her sister, Minnie Evans. The bride's gown was of gray georgette over pink silk. After the ceremony a six o'clock dinner was served at the hotel. Mr. and Mrs. Crom took the evening train for their home in Pierce, Colo. The groom has just received his discharge from the navy where he held the rating of coxswain. Before crossing the seas he was instructor in the naval training school at San Francisco.

Herron Homemaking Circle.

Mrs. E. Everest was hostess to the Herron Homemaking Circle yesterday afternoon at her home near Maryville. The inclemency of the weather prevented a large attendance. The time was spent socially and refreshments were served.

Breaks Two Ribs in Fall.

Charles Kalstrup, a farmer residing southwest of this city, suffered two fractured ribs about 7 o'clock this morning when he fell from a fence at his home.

Kalstrup was climbing the fence to bring a cow back from pasture when the accident occurred. He came to Maryville where he received medical attention.

Hopkins Baptist Church.

Rev. A. J. Thames, superintendent of Missions of the Kansas City district, will speak at the Hopkins Baptist church Sunday. Services in the morning, afternoon and evening. A basket dinner at noon in the grove. A cordial invitation is extended all to bring their dinners and spend the day with us. We desire to see the "old hill" full of folks and conveyances. Help make it a banner day in the work of both Sabbath School and church. R. R. WATTS, Pastor.

A New Strawberry Record.

F. M. Claycomb, formerly of Maryville, and now located on a farm in Anderson County, Missouri, sends in an interesting account of the country which he now calls home.

Claycomb says that on one acre in Anderson county 317 crates of strawberries were grown, and that they averaged $6 per crate.

Home From Visit.

W. A. Miller returned this morning from a visit with relatives in Alton, Ill., and Burlington and Wapello, Ia. He also spent a few days in St. Louis buying stock for the Bee Hive Shoe store, and while there visited Rev. and Mrs. C. Emerson Miller, formerly of this city.

Miss Francis Holliday, assistant teacher in the training school of the State Teachers College, sustained a badly sprained ankle and a broken down arch yesterday afternoon while assisting in the folk dancing classes.

ENGLISH WAR CABINET TO BE RECONSTRUCTION BODY.

London, (by mail)—With the signing of peace, Great Britain's war cabinet is expected to develop into a somewhat larger reconstruction cabinet. The War Cabinet comprised five men plus the Prime Minister. Now Sir Eric Geddes, Minister of Transport, has been added.

It is expected that with a return to conditions of peace, the reconstruction cabinet will be augmented by inclusion of the Foreign Colonial, Indian and War secretaryship the First Lord of the Admiralty and the Minister responsible for trade and commerce, and perhaps the Minister of Labor.

As at present constituted, the Prime Minister's cabinet comprises some forty men, including the chief ministers, secretaryships and presidents of government departments. It is too unwieldy to act quickly as a whole body on any matter. Hence the tendency toward creation of an inned cabinet,

Commenting upon the possibility of such cabinet procedure, the Evening Standard says some change may be expected as regards the Colonial Secretaryship, the trend being for separation of the crown colonies from the self-governing dominions and a minister being appointed for the latter only. Imperial preference in trade and commerce for the dominions would make the latter post important.

"The Lord Privy Seal and the Lord President of the Council," says the Standard "might well be reserved for distinguished men who, freed of details of administration, are statesmen in the highest sense of the world. In the British Cabinet there should always be room for men like Mr. Balfour or Lord Curzon, who have minds not so exclusively bent on the present that they are mindless of the lessons of the past or indifferent to the dangers of the future.

"The probabilities are that there will be a return, to a large extent, to the collective cabinet responsibility of prewar days, though never, let us hope, to the days of cabinet so unwieldy that the charge that it was a debating society was not unfounded."

GOV'T. HEALTH SERVICE HOSPITAL FOR ST. LOUIS.

St. Louis, June 12.—The Board of Estimate and Appointment at a meeting here decided to accept the government's proposal to take over United States General Hospital No. 40, formerly the City Infirmery. The condition will be made that the government within a year begin the erection of a new building for use by the United States health serivce. It also was decided to ask an official be sent here to negotiate with the city regarding remuneration for further use of the buildings.

Plans for the erection of a 750 bed hospital here by the Public Health Service were told by Thomas [illegible] Lovelace and Edward Gengenbach [illegible] the Chamber of Commerce.

Director of Public Welfare Schmoll said the maintaing of the city's infirmary in the Christian Brother's College building will mean an additional cost of $50,000.

MOONSHINE NOW MADE THROUGH USE OF ICE.

Thomasville, Ga., June 11.—It is being rumored that in some sections of the Wiregrass, moonshine booze is being made by a process that calls for an ice cream freezer, instead of the timehonored lard can.

By this process it is said, the "mash" is put in the freezer, and when it has become frozen the booze just separates from the mash and "there you are," with no distilling needed and no smoke to it as a give-away. Of course by this process it would be necessary to be near a town to get a supply of ice, but in spite of inconveniences of that sort large sales of ice cream freezers are reported from some sections, though this immediate section is said to be still faithful to the lard can.

Wheat Usually Graded High at Terminals.

A large percentage of the wheat delivered at the terminal markets for interstate or foreign shipment is placed in the highest grades of the Federal grain standards by grain inspectors licensed by the United States Department of Agriculture. Duluth and Minneapolis are two of the largest terminal wheat markets in the country. Between January 15, 1918, when the revised Federal grades became effective, and December 31, 1918, more than 40,000 cars of hard red spring wheat were inspected at Duluth, of which nearly 85 per cent was placed in grade No. 1. At Minneapolis nearly 50,000 cars were inspected, of which more than 70 per cent was placed in grade No. 1.

When a farmer sells his wheat to the local elevator, a grade is placed upon it usually by the elevator manager and not by a licensed inspector of the Federal Government, because few such inspectors are located at country points. Unless the grain is ground at the local mill, it is finally shipped to a terminal market, where it is graded by a disinterested inspector who is licensed by the Secretary of Agriculture. In deciding the grade the inspector uses the grades established by the United States Department of Agriculture, which are often referred to as the Federal grades.

Enforcing Grain Standards Act.

In enforcing the grain standards act, the authority of the Federal government reaches only shipments of grain in interstate commerce—from one State to another—or to foreign countries. The Department can not control the country buyer or elevator man, nor the miller who buys grain on the spot, for such transactions usually are not interstate. While these buyers may use Federal grades, the grading is not under the jurisdiction of the Department. If they do not assign the grades fairly and accurately, only the State officials can reach them. The licensed inspectors, however, are under the control of the Department. Such inspectors are not allowed to continue to inspect unless they are competent. If anyone is employed in an elevator or mill or has any connection with the buying and selling of grain he can not secure a license to inspect grain, and if he does not do satisfactory work his license may be suspended or revoked.

INCREASED USE OF ZINC.

St. Louis, June 11.—Zinc, of which the public knows but little save that it is "a lowly sort of metal," already is being used in the manufacture of corset steel tips, shoe pegs, roofing shingles, wire, springs, nails, electric fan blades, pencil ferrules, automobile hub caps and lighting figures.

Soon, according to delegates to the convention of the American Zinc Institute in session here, zinc will be used in the manufacture of containers for tobacco, confections and many other products now made of tin or other metals.

The purpose of the institute is to "put zinc on the map" and an educational campaign to do this will soon be launched.

Marriage License to Amazonia Couple.

GOODBY, WOMEN'S TROUBLES

The tortures and discomforts of weak, lame and aching back, swollen feet and limbs, weakness, dizziness, nausea, as a rule have their origin in kidney trouble, not "female complaints." These general symptoms of kidney and bladder disease are well known—so is the remedy.

Next time you feel a twinge of pain in the back or are troubled with headache, indigestion, insomnia, irritation in the bladder or pain in the loins and lower abdomen, you will find quick and sure relief in GOLD MEDAL Haarlem Oil Capsules, [illegible] old and tried remedy for kidney trouble and allied derangements has stood the test for hundreds of years. It does the work. Pains and troubles vanish and new life and health will come to you continue their use. When completely restored to your usual vigor, continue taking a capsule or two each day.

GOLD MEDAL Haarlem Oil Capsules are imported from the laboratories at Haarlem, Holland. Do not accept a substitute. In sealed boxes, three sizes.

Cheap Containers Best.

The cost and treatment of containers have much to do with success in marketing by parcel post. A container should be cheap, neat, and light. The amounts involved in most parcel-post shipments of farm produce do not warrant the use of an expensive, heavy package because of the first cost and the charges for postage. The container should be adapted to the particular produce shipped and should be whole and clean.

The trouble of returning empty containers often influences people to discontinue parcel-post marketing. The city dweller often has little room to keep containers, and it is not practicable to return them singly, for the cost of postage is high on small shipments. Then,too, it is often inconvenient to take a bulky package to the post office station. If the customer can not conveniently store them and return three or four at one time the producer should, if possible, use containers that are cheap enough for a sngle service. Containers should never be bought with price as the only consideration, however, as they should be strong enough to carry the contents safely. For many shipments cheap splint baskets are satisfactory and the cost is so small as to make the return of them unnecessary. Any plan concerning the return of containers should be clearly understood by both producer and consumer before shipments are made.

M. U. OFFERS HOSPITAL SITE.

Curators Would Give Boone County Use of Land on University Campus.

Columbia, June 10.—The University of Missouri authorities last week offered to give the northwest corner of the University campus for a site for the new Boone County Public Hospital. Along with the land the University offered heat, light, water, laboratories, and the use of the new X-Ray machine in return for educational advantages.

It was said by one member of the hospital board unofficially that the University's offer of a site probably would not be accepted. The board, however, has not expressed any opinion on the matter.

RED CROSS LEADERS HERE TOMORROW IN CONFERENCE

Miss Neiswanger and Laptad of St. Louis Suggest Nurse for This County—Big Convention at St. Louis June 16.

Miss Laura Neiswanger, director of Bureau of Public Health of the Southwestern Division and her assistant Miss Pearl Laptad from St. Louis are conferring with the officials of the Nodaway Red Cross today.

Miss Neiswanger stated that she hoped to place a nurse in this county in the very near future who will assist the resident county nurse in her activities and keep in close official touch with the head of this division.

The conference of delegates from all the organizations in the Southwestern Division will be held next June 16 at St. Louis; Dallas, Texas, June 18, and at Wichita, Kan., June 20. All organizations must send at least one delegate to this conference but it is desired that as many attend as can. The delegate from Nodaway county has not definitely been [illegible] definitely been selected, as yet, but it is probable that M. J. Alderman will attend the St. Louis convention.

"Let's Make It a Million."

A million members next year in the farm bureau of the 33 northern and western states is the goal set in a notice to county agent leaders and county agents by the United States Department of Agriculture. Reports show that on April 1 there were 409,841 farm bureau members in these states, with 8,575 community committees—nearly a 30 per cent increase since December, 1918, report, despite the influenza epidemic which handicapped membership campaigns.

"According to the 1910 census," says the notice to county agents, "there were 3,262,955 farms in the northern and western states. With one-third of the farms represented in the farm bureaus they could be truly said to be fairly representative. Farmers should not be coaxed or scared or fooled into the farm bureau. The organization is an appeal to their intelligence and their memberships should be solicited on a thoroughly dignified common sense business basis. Now is the time to make plans for the annual membership campaigns for next fall and winter. Some of the States may wish to do this on a state-wide basis."

Fertilizers Sold in Missouri in 1918

The sale of fertilizer in the state of Missouri amounted approximately to 90,000 tons during 1918. This is 25,000 tons more than was reached in 1917,the year with the next highest total. This enormous sale was due primarily to the increased acreage sown to wheat last year. While this year's sales may not reach the high total of last year it still promises to be large. Users of fertilizers are increasing in number every year, and its value has been demonstrated as a business proprosition to those who have used it in the past.

Some Corset Truths for Women to Consider

It is not an easy task to reshape a neglected figure into shapely lines. Neglect or poor corsetry allows little bumps, angles or hollows to mare the figure lines.

To smooth out these inequalities a properly de signed corset and the use of proper materials in the corset will recreate the figure.

MODART Front Laced Corsets are poise designed. The designer of the MODART Corset makes all MODART Corsets give proper poise to the figure and then designs the corset to symmetrical artistic proportions.

Women with madly poised figures can never be graceful—try as they may. If proper poise is lacking, the grace is lacking too.

So whether you are tall or short, stout or slender, you can have the carriage that will show your figure and your clothes to the greatest possible advantage if you will adopt the MODART Corset.

We ask you to accept a trial fitting, which costs you nothing and you will immediately see why social leaders, famous actresses and beautiful women generally wear the MODART.

WOOL! WOOL!!

I will buy your wool and pay the highest market price. My record in handling last years clip under government rulings is sufficient guarantee I can give best results. Plenty of sacks and twine on hands.

GRAHAMS
Dept. Stores "All Sorts of Things"

Are Moving This Week Into Their New Store

HAVE YOU SEEN IT?

Right Next to Townsend's
Right Next to Woolworth's

Have you noticed that attractive new show window. Beautiful isn't it? And next week, its going to be brimful of new summary merchandise at our usual attractive prices.

There'll be an Opening Sale on Friday and Saturday of next week. Be sure to come—you'll want to see how conviently arranged the new store is; further, you'll be interested in the new things we have to show you for summer wear.

Its a new Store with an old policy.

EVERYTHING GOES FOR CASH.

ONE PRICE TO EVERYBODY.

ALL PRICES IN PLAIN FIGURES.

MONEY CHEERFULLY REFUNDED IF YOU AREN'T SATISFIED.

THE BEST FOR A LITTLE LESS.

We Want Your Trade

And we'll justify your patronage by saving you money. There are thirty other busy stores like this one in Missouri and Iowa. THEY—

Buy in large quanities.

Direct from manufacturers.

Sell for cash—always have.

No losses on credit accounts.

Eliminate cost of delivery.

That's why we can save you money — our prices carry conviction.

The old store will be open until Tuesday of next week—things are a bit torn up but we'll take care of you just the same. Come in.

Watch next week's paper for our Opening Announcement, and be sure to reserve Friday to come to

HOME TALENT MUSICALE MONDAY

PROGRAM TO BE PRESENTED BY LOCAL MUSICIANS AT FIRST CHRISTIAN CHURCH

BENEFIT PUBLIC LIBRARY

Proceeds of Entertainment To Be Used To Replenish Book Supply.

The musical talent of the city will [illegible] entertainment next Monday evening at the First Christian church for the benefit of the book department of the Public Library. The book committee is asking the people of Maryville to support this entertainment, both on account of the attractiveness of the program to be given and the urgent need of the library of more money for books.

It will be distinctly a Maryville program, to a Mary[illegible] for the benefit of all Maryv[illegible]. It will make its appeal to all lover of good music, and its variety will please all. Because of the excellence of the program the committee is hoping that the public will respond generously.

The money is needed to purchase new books and to rebind those now on the shelves which are badly worn. books that must be immediately re- We now have more than two hundred bound or discarded. The last shipment to the bindery was in December, 1917, and the last purchase of new books was in April, 1918. So it will be seen that we are more than a year behind in our needs. No money has been spent or will be spent for current fiction out of the income from taxation. Fiction literature is supplied and kept by those who read it, each one paying a penny a day for each book used. Only books of reference, standard literature, science, history, art, and such other books as are considered indispensable by all libraries, are purchased from taxation.

The money received by the library from the city last year was more than two hundred dollars less than was received from the same source the year before, and the expense of maintenance was greater on account of the increased cost of everything. So the purchase of new books and the repair of old ones was discontinued for more than a year. But this can not continue longer without the service the library should render being seriously hampered.

So the committee is making its appeal to you for a liberal patronage of the entertainment to be given, not as an offering, but as an incidental benefit to the library resulting from the money you pay out for that which is more than just value received. The library belongs to the people of the city, the need for more books is urgent, and for this reason we ask you to support this entertainment. The admission price is 35 cents.

THE BOOK COMMITTEE.
C. A. HAWKINS, Chairman.
SUPT. J. M. McDONALD.
DR. S. E. DAVIS.

Corp. Clarence E. McDonald, son of Mr. and Mrs. J. M. McDonald of 514 Prather avenue, arrived home yesterday, having been released from military service. Corp. McDonald was a member of Company A, 315 Infantry, 88th Division. He served six months overseas.

11 TO RE[illegible]IVE DIPLOMAS AS W[illegible]ON GRADUATES

Exercises to [illegible] Guilford Tomorrow Nig[illegible] to Present the [illegible]

The annual graduat[illegible]ercises of the Washington township [illegible]ral schools will be held at 8 o'clock tomorrow evening at Guilford. Prof. S. E. Davis of the State Teachers College will deliver the class day address and the presentation of the diplomas will be made by County Superintendent of Schools Bert Cooper.

Following are the graduates who will receive diplomas:

Velma Skidmore, Nile Schwejkhardt, Wilson Craig, Alden Davis, Opal Willhite, Blanche Knudson, Irene Wenderly, Edra Wallace, Marvin Winters, Gladys Hailey, Leona Whorton.

RUMORS CONFLICT ON WIRE STRIKE

STRIKERS [illegible] COMPANY OFFICIALS EXPRESS DIFFERENT VIEWS.

REPORT 20,000 ARE OUT

Possibility That Broker Operators will be Called Out—Would Add Several Thousand.

Chicago, June 12.—The nation-wide strike of the telegraphers is a success and will gain strength as it grows older—the strike is a flat failure and will fizzle out within a few days—these are the views of the situation held today. The first bit is the opinion of officials and members of the union, while the second is the view taken by the officials of the Western Union company. The public is privileged to accept either view.

According to the president of the union, the first day of the strike took between eighteen and twenty thousand men and women operators from the keys. It is maintained that other operators would go on strike until the number is increased to forty thousand by tonight. The single new phase of the situation today is the possibility of the broker operators being called out, which, if the move is successful, would add several thousand men to the list of strikers.

HOLD POSTPONED MEETING AT QUITMAN NEXT SUNDAY

Meeting Arranged for Last Week Was Called Off Because of Rain—For Soldier Memorial.

The Citizens Meeting that was to have been held at the Methodist church in Quitman last Sunday afternoon was not held on account of rain, but this same meeting is called again for next Sunday, June 15 at 3 p. m. The object of this meeting is as was stated before, to perfect a Township organization for the purpose of rightly remembering our boys from Green Town ship who so gladly and bravely gave their services in the world's war for our protection. We will again ask for a full representation from all parts of the township.

Mr. and Mrs. J. D. Dovenspike of Silver City, Ia., are visiting in Bedison with Mr. and Mrs. J. F. Kidd and family and Mrs. W. W. Kidd and family.

ELKS TO MAKE DRIVE FOR S. A.

CAMPAIGN TO BEGIN THROUGHOUT ENTIRE COUNTRY

NODAWAY'S QUOTA $3000

Fred P. Robinson, Nick Sturm and R. F. Hambien, Local Committee, Expect Oversubscription.

Remember those doughnuts you read about the boys overseas getting during the war, from the Salvation Army lasses, whichwas only a small part of the work that organization was doing over there? Of course you do, and now the wheel has revolved again, and the same Salvation Army workers who were trying to keep the boys provisioned and in good spirits over there during the war, are back here in home service work, trying to keep up the morale and digestion of the poor of this country, by providing better conditions and plenty of food.

The State of Missouri starts on a Salvation Army Home Service campaign June 23rd, to raise a trifle over $700,000, for the people of this State, who are needy and deserving. Northwest Missouri's part of this is $94,550, and this must be raised in a week's time The campaign in this section of the State was launched the first of this week from the Northwest Missouri's headquarters in St. Joseph, by Ensign Bert Corliss, representative from the Salvation Army, sent here from Chicago to take charge of the campaign.

To give the Salvation Army the backing it should have, and to present the organization in a fair light to every class, the Elks lodge, all over the United States, have decided to stand back of the movement, putting in committees whenever necessary, and assisting in every possible way in putting the Drive across. It was the Elks, it can be remembered, who came to the aid of the Salvation Army during the war, when funds were needed, and gave to the workers in battle scarred fields, the equipment with which to work.

There has been an organization perfected in practically every county in the district, and all will begin soon to get the people interested in this work. The propaganda which has proven so deadly a weapon when wrongfully used, will be turned in another direction, and will be given a chance to show its powers in aiding a meritorious cause. Speeches in public places have been planned by the County Committees, and motion picture shows will advertise the Drive extensively.

The money asked for is needed, as the Salvation Army is starting a bigger work than was known before the war. It will give the families of soldiers killed in the war a chance to live right, and will open up the way for a better manhood in the coming generation. It would do no good to win a war to prevent from being annihilated by another country, and then sit still and be killed internally by improper living conditions, that undermines our manhood of today.

It is up to each county, not only to go over the top with its quota, but oversubscribe it. Ask the soldiers how they were aided by the Salvation Army, and see what a chance it is to help.

The quota for Nodaway County is $3,000. The committee in charge of the drive here is composed of Fred P. Robinson, Nick Sturm and R. F. Hamblen.

LOCAL MEN TO ATTEND HOPKINS MEETING TONIGHT

Street Oiling and Other Public Improvements To Be Discussed—Pickens To Make Address.

A number of the members of the Commercial Club have made plans to attend the "get-to-gether" luncheon and meeting tonight at Hopkins, at which plans for the oiling of the streets and many other matters of public improvement will be discussed.

Secretary George A. Pickens, of the local organization will make an address at the meeting.

It was planned to go to Hopkins in automobiles tonight, but the muddy condition of the roads makes it probable that the trip will be made on the train.

FORMER CLEARMONT DOCTOR TAKES UP PRACTICE HERE

Dr. H. S. Dowell, Just Released From Army, to Open Office in This City At Clearmont 14 Years.

Dr. H. S. Dowell, formerly of Clearmont, has opened offices in the Craig building over Montgomery-Cummins Clothing Store, and will engage in general medical practice in this city.

Dr. Dowell was recently released from service in the U. S. Medical Corps where he served ten months, entering in April, 1918, as first lieutenant and being commissioned captain in July. Prior to his entering the army he had practiced his profession in Clearmont for fourteen years.

While in the service Dr. Dowell was stationed at Fort Des Moines, Hoboken, N. J., and in the U. S. Debarkation Hospital No. 3 at New York, the largest institution of the kind in the United States.

Dr. Dowell and his family will move this week into the property now occupied by Charles McNeal and family on South Buchanan street.

ARGONNE HEROES OF 89TH ARRIVE

NODAWAY'S "FIGHTING COMPANY" OF ST. MIHIEL AND ARGONNE HOME

THREE MONTHS ON FRONT

A Year's Service Overseas Is the Record of Co. L of 356th Infantry In Last Battle of World War.

The Nodaway County heroes of the St. Mihiel and Argonne drives, members of the 356th Infantry, 89th Division, arrived in Maryville today over the Wabash and Burlington from Camp Funston, leaving there at 1:50 p. m. yesterday.

Practically all of the returned veterans were members of Company L of the 356th Infantry, Nodaway County's "fighting company." The boys were in the thick of the fight from August 5 until the day of signing of the Armistice. On that memorable day Company L fought in the front line trenches up until the last minute. In fact, the company commander of that company is said to have fired the last shot of the world war at 12 o'clock or a little later.

All of the Nodaway boys of this division endured the great strain of over three month's actual front line warfare. Very fortunately none of them were seriously injured or killed, although many of their comrades made the supreme sacrifice. It was at the Argonne that Captain A. Y. Weir of Company L was killed.

The 89th fighters sailed on the "Coronic" for France from New York June 4 of last year and landed in Brest on June 16. The company returned from France on the "Prince Frederick Wilhelm," sailing from Brest May 18 and arriving in New York May 27. Almost a year in France and three months on the fighting line is their record.

Company L participated in two of the most famous battles of the war in which the Americans engaged, St. Mihiel and the Argonne. The St. Mihiel drive was entered upon August 5 and the Argonne October 19.

Those who arrived home today are: Sergeant Ross Scott, son of Mr. and Mrs. W. B. Scott, living three miles west of Maryville; Sergeant Alvie Burch, son of Mr. and Mrs. J. S. Burch of Pickering; Sergeant Earl Pope, son of Mr. and Mrs. C. M. Pope of Hopkins; Sergeant Roy Schulte, member of Company B of the 356th Infantry; Corporal O. P. Fisher, son of Mr. and Mrs. Fisher of 810 North Mulberry street; Corporal L. L. Livengood son of T. R. Livengood of Elmo; Private James Fisher, son of O. P. Fisher of Maryville; Private William McKee of Pickering, and Private Jessie Tanner of Burlington Junction.

Private Lee Powell of Ravenwood, and Charles Saddler of Pickering.

After Merchant's Statements.

County Clerk Smith and Deputy Clerk Wright are out in the country today getting merchants' statements. Smith went to Barnard and Wright went to Burlington Junction and Clearmont.

AG. HEAD SAYS IT'S ARMY WORM

PROF. METZLER OF S. T. C. SAYS SPECIMENS ARE ARMY WORMS

FOUND ON WATSON FARM

Army Worm Found Destroying Alfalfa Field—U. of M. Formula Recommended by Metzler as Remedy.

Harvey Watson, son of Albert Watson, living three miles west of Maryville brought a specimen of worms to town late yesterday afternoon to find out what they were and how to get rid of them for they were completely destroying an eight acre field of alfalfa at a rapid rate. It had been suggested to him by some of his neighbors that the pests might be army worms, although the worm did not seem to meet their description of the army worms that they had seen several years ago. The main difference between the worms that Mr. Watson had and the ones the "old timers" had seen was that the latter resembled a caterpillar while the former lacked the fuzzy covering of the caterpillar.

The worms were taken to the laboratory of the agricultural department at the State Teachers College where Prof. L. F. Metzler, head of the Department of Agriculture, pronounced them to be very good specimens of the army worm.

The worms were from one inch and a half to two inches in length of a dark gray and dingy black color, with three narrow, yellowish stripes above and slightly darker and broader on each side, quite resembling cutworms, to which they are nearly related. The army worm is sometimes called the alfalfa worm. It is a native of the Southern states but occurs at times from Canada to the Gulf and as far west as the Rockies.

Prof. Metzler stated that the formula sent out by the Agricultural Department of the University of Missouri which was printed in yesterday's paper was as good as any that could be recommended. Of course the formula might be varied a little to suit particular conditions. Other suggested formulas are those in which Paris Green is mixed with bran mash. Compounds of arsenate are sometimes used in place of Paris Green. Should the Army worm be moving in droves a trench can be dug and, after the worms are in the trench, they can be easily killed by spraying them with pure kerosene. Prof. Metzler, also, suggested that by turnings hogs into the infested field the field could be quickly rid of a vast number of the parasites.

The formula recommended by the University of Missouri experts is as follows: "Use poison bean wash, prepared by mixing dry two pounds of white arsenic with fifty pounds of bran, then, mixing with the above the juice of twelve lemons, four quarts of cheap molasses and eight gallons of water. The above should be sown broad cast in the morning. The formula can be varied as to the total quantity used, provided as to the total quantity tained.

SEAPLANES AND FLOTILLA SHOW ALONG MISSISSIPPI

Sea and Air Machines Make Trip From Cairo to St. Louis—In Interest of Navy Recruiting.

St. Louis, June 12.—The three seaplanes flying in advance of the navy flotilla coming up the Mississippi River have reached this city from Cario, Ill. They circled three times over the downtown district and then lighted on the river between Biddle street and Eads bridge. The planes are numbered 2231, 2074 and 1619.

Lieut. H. T. Stanley, in command, said the three planes made the trip in 1 hour and forty-five minutes. On the journey the planes maintained an altitude of between 2,500 and 3,000 feet. The anti-submarine flotilla, which is on its way here in the interest of naval recruiting, left Cario about daylight yesterday, Lieut Stanley said. The planes passed the boats.

Miss Cummins Home.

Miss Marguerite Cummins, who has been attending Notre Dame College, Notre Dame, Ind., arrived today to spend the summer with her father, Thomas A. Cummins.

Newt Morgana of Parnell, has returned from a trip to Wyoming.

BRITISH TROOPS BEGIN OFFENSIVE ON PETOGRAD

Report Says Troops Are Now Within 185 Miles of Russian Capitol.

Stockholm, June 12.—The British troops on the Murmansk front of northern Russia have begun an offensive and are advancing on Petrograd. They ahve reached Petrozevonsk, capital of the government of Ilontsk, 185 miles northeast of Petrograd it was reported by a Helsingfors dispatch today.

STEAMERS COLLIDE 100 MILES OFF COAST IN FOG

Lives of 600 Soldiers Endangered When Trop Transport Strikes Other Vessel—Report All Safe.

New York, June 12.—The lives of 600 were endangered when the big liner, Graf Wildersee, now a transport, was rammed by the steamer, Rennoni, in a dense fog 100 miles off the coast early today. Two transports were rushed to the side of the sinking Waldersee a few hours after the collision was reported by wireless. All the passengers and crew were taken off and the Waldersee is being towed to port.

BE ON YOUR GUARD, FOLKS TOMORROW IS FRIDAY, 13

Old Man Fate Will Have His Inning Tomorrow.—Rabbitt's Feet and Horseshoes To Be Popular.

If you see a man walking down the street tomorrow with his pockets loaded with horseshoes, do not put in a call for the sanity doctor—he's probably only playing safe, for tomorrow is Friday the thirteenth.

Weather prophets and other "wise ones" say there is nothing out of the ordinary scheduled for tomorrow, but it is whispered about town that many lucky stones, rabbit's feet, and other so called "charms" will be pressed into service to foil Old Man Fate.

S. R. LUCAS HEARS OF SON'S TRAGIC DEATH

Harry Lucas Run Over by Truck in Los Angeles—No Funeral Arrangements Yet.

Samuel R. Lucas of the Martin Flats received word from his daughter, Mrs. O. B. Evans of Los Angeles, Calif., that his son, Harry, was accidently killed in that city yesterday when he was run over by a truck. No other particulars of the accident were mentioned in the telegram.

Harry Lucas was employed as an interior decorator. Mrs. Evans will accompany the body to Maryville, expecting to arrive here Sunday or Monday. As yet, no funeral arrangements have been made.

Several years ago Harry Lucas was in the grocery business of this city.

Harry Lucas was born in Indiana, Pa., in 1869, and came to Maryville with his parents in 1885. He lived in this city until about fifteen years ago.

POSTMASTER EXAMINATION

One to Be Held Here for Postmaster at Conception Junction.

Eldon Irvin, secretary of the Civil Service Commission for this county, received word this morning that a civil service examination will be held in Maryville on July 12 for postmaster at Conception Junction. This office is a fourth-class office. Henry J. Berg is at present postmaster at that place.

Mrs. Bellows Here.

Mrs. Harold Bellows and little daughter, Helen Marie, of Chicago, came this noon to visit her parents, Mr. and Mrs. J. R. Brink, her sister, Mrs. R. P. Hosmer, and Mr. Bellows' mother, Mrs. George P. Bellows. Mrs. Brink and Mrs. Hosmer and daughter, Margaret Louise, went to St. Joseph yesterday afternoon to meet them.

Mrs. Herman Clarkson and children of Macon, who have been visiting at the W. A. Burris, G. B. Holmes and O. L. Holmes homes, left yesterday for their home

COMPLICATION IN PEACE SITUATION

GERMANS ATTEMPTING TO TAKE ADVANTAGE OF ALLIED DISSENTION

LABOR PROBLEM SERIOUS

Failure to Back Leaders Policies by Allied Peoples Gives Opportunity For Hun Propaganda.

Paris, June 12.—The general peace situation has become complicated as a result of rumors which gave rise to dissensions among certain representatives of the allies and associated powers. At the same time it is realized by impartial observers that the Germans are taking advantage of a delicate labor situation in Europe to create the opinion throughout the world that they are unwilling to sign the treaty.

Paris, June 12.—It is obvious that never before in the world's history has there been so great a necessity for a real league. The "Big Four" have been torn by differences of opinion as a result of months of labor, and, whether with or without cause, the great quality of a positive and immediate decision has seemingly disappeared since the envoys of the Allies and the Associated Powers gathered in Paris.

An International News Service correspondent personally discussed with leaders of the delegates the exact situation, and as a result of his observation and confidential communications it is possible to describe the facts as follows:

1. The campaign directed against Wilson's policies in Washington and throughout the United States has materially weakened his influence among his associates. The belief is constantly growing in Paris that the failure of President Wilson to keep his spokesmen in Congress informed as to his intentions was a most serious mistake.

2. Lloyd George after insisting on most drastic peace terms has modified his views as a result of pressure that has been brought to bear by a group of international financiers having their headquarters in London and New York This is taken by Germany as an indication of weakness.

3. Labor unrest in Great Britain and France has been recognized in Germany as an indication of war weariness and has encouraged German leaders into defence.

WOMAN SUFFRAGE BEFORE LEGISLATURE JULY 2

Special Session of That Body Called by Governor Gardner to Act on the Suffrage Amendment.

Jefferson City, June 12.—Governor Gardner today issued a call for an extra session of the Missouri Legislature for July 2 to ratify the woman's suffrage amendment just passed by the national congress.

EX-SENATOR DIES TODAY.

Excelsior Springs, June 12.—Ex-Congressman James A. Tawney of Minnesota, died here this morning of heart disease.

BATLE IMPENDING NEAR JUAREZ.

El Paso, June 12.—A battle to the east of Juarez between the forces of Villa and federal soldiers is believed to be impending today. Five hundred well armed federal soldiers left Juarez last night.

Mrs. Carrie Rogers returned Tuesday night from a visit in southwestern Missuri and in Aurora with a sister. Her daughter, Mabel, will spend the summer in Aurora.

WEATHER FOR TODAY

Partly cloudy tonight and Friday, probably scattered thunder showers; continued warm.

NOTICE!

All owners of automobiles, and all other vehicles and persons driving same, are notified that the Marshal and Police of the city of Maryville, Missouri, are instructed to arrest any and all persons found driving any vehicle on a public street on or after June 15th, 1919, on which the city license tax has not been paid as required by Ordinance No. 806 of the City of Maryville.

MEMBER MISSOURI PRESS ASSOCIATION

"We have no possible right to break suddenly into the middle of a negotiation and demand from the president what instructions he has given to his representative. That part of treaty making is no concern of ours." Teh quotation is from Senator Henry Cabot Lodge, Republican leader in the senate. He was speaking in the senate on Jana. 24, 1906, while that body was considering a resolution calling upon President Roosevelt for information as to foreign negotiations then under way. If the senator was right then he is wrong now; if he is right now he was wrong then.—St. Joseph News-Press.

FIFTEEN HUNDRED FOR A CALF

Jim Allen, the Big Hereford Cattle Man Sells Forty Head To Go To a W Ranch Near Kaysee, Wyo.

Among forty head of pure bred Herefords sold last week by Jim Allen, the well known breeder residing five miles northeast of Hopkins, was a bull calf, Real Fairfax, that brought the handsome sum of $1,500. This calf is only 14 months old and is a nephew of Richard Fairfax, who sold this spring for $50,000. The other cattle sold by Mr. Allen consisted of cows and calves and brought very satisfactory prices, the check handed to Mr. Allen being for as much as two or three car loads of ordinary cattle would bring. Jim has a splendid herd and his many friends are pleased to see him prosper. The man who bought the consignment just mentioned is a relative of George Harvey, south of town. Babson is his name and he is a Chicago business man but owns the J. U. Bar cattle ranch near Kaysee, Wyo., to which point the cattle were shipped. It will be remembered that Mr. Babson once owned a farm west of Hopkins, operated by Mr. Harvey.—Hopkins Journal.

AN ENEMY OF WOMANHOOD.

The complexion, digestion and almost the complete personality of woman are dependent upon health. Woman's ills are her great enemy, as they cause bad complexion, dark circles under the eyes, headache, blackache, nervousness, sleeplessness, dragging-down pains and the blues, and often totally unfit her for a companion. The great American remedy for such conditions is Lydia E. Pinkham's Vegetable Compound, which has been restoring three generations of ailing women to health, and may be relied upon with perfect confidence.—Adv.

Result of Examination.

Miss Eva Davis received a report this morning of the examination held a week ago Monday night in the Sunday school rooms of the Christian church for the Community Teachers Training Class. The papers were sent to St. Louis for grading and it was announced that two out of the eighteen teachers taking the examination failed.

Mrs. Wolfers Slightly Burned.

The life of Mrs. E. C. Wolfers, Sr., was endangered last Thursday when she touched a match to one of the burners of the gasoline range. By reason of a leak in one of the burners, gasoline had accumulated in the pan beneath, and was ignited as soon as the match was struck, the flames almost enveloping Mrs. Wolfers. Miss Farquar, who is staying at Woodlawn exercised great presence of mind by preventing Mrs. Wolfers rushing into the open as she tried to do, but instead caught and threw part of her own clothing around her, smothering out the flames, and Mrs. Wolfers escaped with a few slight burns about the face and hands. The gasoline stove has been tabooed and an electric range will now serve in its stead at Woodlawn.—Hopkins Journal.

S. P. SPENCER FOR PRESIDENT?

St. Louis, June 11.—Five thousand letters have been sent out to Republican workers in Missouri for an expression of opinion on the popularity of Selden P. Spencer, United States senator, as a candidate for president of the United States. This is the first step to be taken in a state-wide campaign to place Spencer in the field as a candidate for nomination for the presidency in 1920. A great many replies to the letters have already been received, saying, in effect, that Republicans in the state would support the senator if he will permit his name to be used.

Robert L. Brown was appointed curator of the estate of Paul and Mildred Brown, minors, in probate court this morning by Probate Judge Robertson.

MARYVILLE MAN'S LUCKY FIND.

Will Interest Readers of the Democrat-Forum.

Those having the misfortune to suffmer from backache, uninary disorders, gravel, dropsical swellings, rheumatic pains, or other kidney and bladder disorders, will read with gratification this encouraging statement by a Maryville man.

J. N. Bryan, retired farmer, 222 Eleventh St., says: "At one time I was having trouble from my back and kidneys. I had an intense soreness through the small of my back which pained when I tried to bend over or straighten up quickly. My kidneys acted too frequently and this made me weak. I saw Doan's Kidney Pills advertised and bought some from Love & Gaugh's Drug Store. From the first, I had relief and as I continued using them I was benefited in every way. It has been quite a while now since I have needed to use Doan's, so I know the benefit is lasting."

Price 60c at all dealers. Don't simply ask for kidney remedy—get Doan's Kidney Pills—the same that Mr. Bryan had. Foster-Milburn Co., Mfgrs., Buffalo, N. Y.—Adv.

KELLOGG IN GRAIN COMPANY

Skidmore Man in St. Joseph Company, Which Was Recently Organized.

The Kellogg-Huff Grain Company, capitalized for $15,000, has filed articles of incorporation in the office of the recorder of deeds in St. Joseph. James F. Kellogg, Skidmore, holds 30 shares of stock; Walter L. Lingle, Bethany, 35 shares; Carman O. Graham, Bethany, 35 shares; B. Ward Welsh, Laclede, 10 shares; Warren M. Huff, St. Joseph, 20 shares, and D. L. Willis, St. Joseph, 20 shares. The company will have its headquarters in St. Joseph.

J. F. Kidd of Bedison, spent this morning here on business.

NEEDS TYPISTS AT WASHINGTON

The Stenographer and Typist Situation Is Acute at Capitol City.

The stenographic and typist situation in Washington is acute and seems to grow worse instead of better, according to an announcement made by the civil service commission to Eldon W. Irvin of this city. Some branches of the service are still calling upon the commission for certifications of large numbers of eligibles; for example, the Bureau of War Risk Insurance has asked for 150 stenographer-typists at $1,200 a year and 375 typists at $1,100 a year for immediate use. The need for bookkeepers is also urgent. The Commission also advised that housing conditions in Washington are considerably improved at this time.

DRASTIC CAR SALE LAW SIGNED BY GOVERNOR

The New Measure Is Intended to Put a Real Check to the Increasing Number of Thefts.

"The large number of thefts of automobiles being committed throughout the state creates an emergency within the meaning of the constitution and this act shall be in effect from and after its passage," concludes the bill recently signed by Governor Gardner which should prove a check to motor car thefts.

The new law in effect makes the certificate of registration, given by the secretary of state when the state license tags are issued, a bill of sale. The law further requires the name and address of the seller of the motor car be supplied the secretary of state, who shall keep a record of it. Fines are provided for the violation of this act. Any person who shall change a certificate of registration, or make a bogus one, is subject to a fine of $100 to $500 and imprisonment of from six months to one year.

The section of the new law regarding the vendor's notice of sale:

In order to make valid or legal a sale or transfer of any motor vehicle registered in accordance with the provisions of this act, the vendor shall, in the presence of an officer qualified to take acknowledgments to deeds, indorse his name on the back of said certificate of registration described in paragraph 3 of section 5 of this act, and the vendee shall also, in the presence of the vendor, write his own name, and to both of said names the said officer shall sign his name as a witness and receive the sum of twenty-five cents therefor; and thereupon the vendor shall deliver to the vendee or transferee the said certificate of registration and which shall be the evidence of the vendee or transferee of his ownership of said motor vehicle, and it shall be the duty of such vendee or transferee, upon request of any peace officer, to exhibit to such officer the said certificate of registration. Upon such sale of a motor vehicle the vendor shall give notice there of, with the name and address of the vendee, to the secretary of state and the vendee shall, within five days after such sale, give notice to the secretary of state of such sale, also the business address of the previous owner, if known, the number under which the motor vehicle is registered and the name, county and business address of the vendee, and upon the payment by the vendee of a fee of fifty cents the secretary of state shall note upon the registration books or index such change in ownership. Any sale or transfer of such motor vehicle without complying with the provisions of this section shall be fraudulent and void, and the vendor and vendee shall each be subject to a penalty not exceeding $50, to be recovered by suit instituted in the name of any officer or informer, and the penalty so recovered shall become a part of the school fund of the county; provided, when the suit is in the name of a person other than an officer, plaintiff shall be entitled to one-half of such penalty; provided, if such certificate of registration be lost or destroyed then upon satisfactory proof that the person applying for a duplicate is lawfully entitled thereto, the secretary of state shall be authorized to issue the same.

TO RECORD FARM STUDENTS

College of Agriculture Will Keep Complete Account of School Activities.

Columbia, June 10.—A complete record of every student and graduate of the College of Agriculture of the University of Missouri, including photographs, is being made by E. H. Hughes, assistant to the dean of the College of Agriculture.

On one side of a large card will be a complete record of the student's work prior to entering the University and a blank space in one corner for his record after leaving.

This will serve to keep the school in touch with each alumnus as well as to keep the Alumnus in touch with the school. The University of Illinois has a record of this kind with a photograph of every student. It is now known by Illinois students as "the rogues' gallery."

FROM INDIA TO CHURCH MEET.

Denver, June 10.—Although eighty-five years of age, Mrs. Lois Lee Parker, widow of the late Bishop Edward W. Parker, of India, came all the way from that country alone to attend the jubilee of the Woman's Foreign Missionary Society of the Methodist Episcopal Church, of which she was one of the founders. Mrs. Parker has been in missionary work in India sixty-one years and is the sole survivor of that small group of women who started the missionary movement half a century ago.

MOISTURE REQUIREMENTS OF WHEAT FOR MILLING.

At the beginning of the process of milling, the miller gives much consideration to the question of the moisture content of his raw material. He knows that in order to secure the highest yields of flour and to insure its greatest purity, the pericarp or outer coatings of the wheat kernel at the time of grinding must be of a certain toughness, and the endosperm, or inner part, of a certain mellowness. The degree to which these properties are possessed by the different parts of the kernel is influenced largely by the amount of moisture present.

Wheat when received at the mill is seldom, if ever, in the best condition for milling, its moisture content being too high, too low, or not properly distributed throughout the kernel. To acquire the right moisture content for the outer and inner parts of the kernel, thereby insuring the best possible milling condition for different wheats, requires the application of various methods of tempering. These methods may consist of a single, or successive, or of combined applications of water, heat, or steam, working through a period of time, ranging from a few minutes to as much as 36 hours, in order that the moisture may be properly distributed within the kernel.

Dry climates and dry seasons naturally produce wheat of low moisture content, and damp climates and wet seasons produce wheat of high moisture content. There is , moreover, often considerable range in the moisture content of wheat during any given season and in any one locality. Moisture determinations of samples obtained from more than 5,000 cars of wheat, which were made by the United States Department of Agriculture at Kansas City, Mo., during the years 1910 to 1914, inclusive, showed a range in the content of that factor from 7.4 per cent to 22 per cent. The fact that the moisture content of wheat may vary so greatly is evidence that the problem of properly tempering wheat is a complicated one.

STUDY MERIAM SYSTEM

Oklahoma Teachers in Modern School Observe New Methods Used at State University.

Columbia, June 10.—Seven teachers in the public schools of Okmulgee, Okla., were in Columbia recently to observe the University Elementary School and its methods. They came here at the suggestion of H. B. Bruner superintendent of public schools of that city, formerly of the University of Missouri, who is interested in trying new methods of public school systems.

The young women who came to observe Prof. J. L. Meriam's work will teach in the new Woodrow Wilson school just built in Okmulgee. The elementary School of the University of Missouri is widely known throughout the country on account of the novel methods used in teaching.

"Doctor Meriam's system is wonderful," said Miss Theodora W. Ellis, who is to be principal of the Woodrow Wilson school. "We shall have to modify some of the methods used here to conform to the system of the schools in our city, but we are going to do all we can to break away from hard and fast rules.'"

Now is the time to buy screens and screening at the Howard Wray Hardware Co. 10-12.

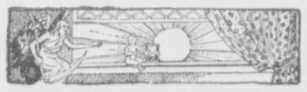
Time Brings Happiness With The Dawn

The Coming of Baby Marks the Advent of a Glorious Future.



Scientists say great stress should be laid upon the remarkable influence which the mother's happy pre-natal disposition has upon the health and future of the generations to come.

There is a splendid preparation women for over half a century have applied before the stork's arrival, known as Mother's Friend. This is a most grateful, penetrating remedy that at once softens and soothes the myriad of broad, flat abdominal muscles under the skin of the abdomen. By its regular use during the period the nerves, tendons and cords are relaxed and there is an absence of nausea, bearing-down pains, strain and general discomfort more often than otherwise experienced when nature is unaided.

By the use of Mother's Friend night and morning the muscles relax with ease when baby comes, the time at the crisis is shorter and pain and danger is naturally avoided.

Write the Bradfield Regulator Company, Dept. E, Lamar Building, Atlanta, Georgia, for their Motherhood Book and obtain a

PUT OUT FLAGS, SAYS GARDNER

Governor Urges Patriotic Services for Flag Day, June 14.

Jefferson City, June 12.—Governor Gardner issued a proclamation yesterday urging the people of Missouri to observe Flag Day, June 14. In part, the proclamation reads:

I urge the display of the flag in the home, the place of business, over all public buildings and the holding of a patriotic service in every community of the state on this day. Flay Day affords an opportunity for us as individuals to renew our vow of love and loyalty to the Nation and the flag which symbolizes our national character. We should, in public assembly, renew our faith in the principles of liberty, of which we are the champions, and reconsecrate our lives and our all to their maintenance.

I have an abiding faith in both the wisdom and loyalty of the American people. They will not forsake the high ideals so exultantly expressed during the war and for which they sacrificed and our soldier boys fought.

EXPECT $90,000 FOR BOY SCOUTS IN ST. LOUIS DRIVE.

St. Louis, June 11.—The active campaign to raise $90,000 for the Boy Scouts in this city by tomorrow night is in full swing, with 800 men and women canvassers out. Leaders feel confident St. Louis' quota will be attained.

The women are devoting their time to work in the best residence districts and in downtown office buildings and stores, while the men have selected a list of 1,000 firms from whom large subscriptions are being sought.

Obituary.

Mr. and Mrs. Frank Bebb, prominent residents of Carpenter, Wyo., mourn the death of their little daughter, Pauline, who, after an illness of only five days, with inflamation of the bowels, passed away on Monday, June 2, 1919.

Physicians and a trained nurse were in constant attendance at her bedside, but their skill availed naught, and the little one, her mission on this earth ended, passed on to the new life, leaving her parents and her two sisters bereft.

Myrtle Wyoma Pauline Bebb was aged one year, six months and twenty-one days. She was an especially attractive child and had endeared herself to everyone in the community by her every-ready smile and cunning baby ways.

The sympathy of a host of friends was attested by many helpful acts and an abundance of beautiful floral offerings.

Funeral services were held in the M. E. Church on Wednesday, at 11 o'clock a. m., with Rev. E. L. Dryden officiating. Interment was in the Carpenter cemetery.

"In a beautiful cloud we thought we saw
Our baby's smiling face;
And a whisper, low, seemed to say to us—
'Oh, Heaven's a happy place!'

So now as we travel our earthly way,
What matters the sorrow or care?
Heaven waits—and we know 'tis a happy place,
Because our baby's there."

Turn On the Light!

By turning on the lights morning and night, poultrymen have found a way to make the hens lay a lot more eggs than they used to.

The COUNTRY GENTLEMAN

is turning on the light, too, these days—lights on better farming methods, better marketing plans, better get-together ideas, better homes. And in this section its light is shining brighter and brighter—for it's reaching more friends every week.

No farmer makes any mistake when he subscribes for THE COUNTRY GENTLEMAN. When he gives me a dollar and says: "Put my name on the list for a year's subscription" he gets the fifty-two biggest and best farm-paper issues he ever saw. Why, farmers have found that single articles have made or saved them a hundred dollars! Yet for only one dollar you can know THE COUNTRY GENTLEMAN, just as a lot of other progressive farmers hereabouts know it. Once you read it you'll never be without it again. Your subscription will start with next week's issue, if you—

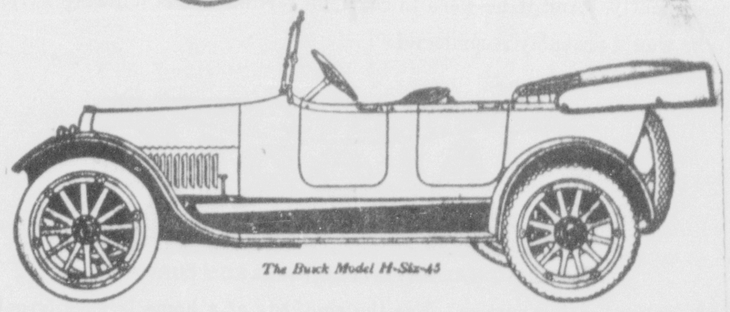
Buick

EVERYBODY KNOWS VALVE-IN-HEAD MEANS BUICK



THE Buick Valve-in-Head motor is designed to get the most out of every gallon of gasoline—and does it.

In this motor the cylinders have no "alcoves" or side-pockets. The full force of the explosion is received by the pistonhead,—where it means *power,*—increased vigor, lessened wastage—conserved energy.

And these cylinders, lacking side-pockets, are quickly and thoroughly cleared of dead gas after each piston stroke—insuring a capacity intake of fresh gas for each explosion.

RECORD REFUTES G.O.P. SLANDER

ATT'Y GEN. PALMER REVIEWS DEMOCRATIC ACCOMPLISHMENTS.

FOUGHT WAR TO VICTORY

Leadership of Democratic Party Unsurpassed During Great Trials Through Which Nation Has Passed.

Chicago, Ill.—The last six years have been the most momentous in the life of the American people and in the history of Christian civilization, declared Attorney-General A. Mitchell Palmer in an address before the Democratic National Committee at its recent meeting in this city. And not the least significant and important achievements of these years has been the manner in which the old slanders against the Democratic party have been refuted, said Mr. Palmer. So long and so often have these slanders been repeated by those who sought political profit by their circulation that they became almost a tradition of our political life. Mr. Palmer continued:

In the great court of public opinion, with the Republican party on trial for slander, the defendant cannot now plead the truth in justification; for the achievements of the Democratic party during its six years of power, both in the domestic field and in the larger field of the world's affairs, have shown that every charge made against it was without foundation.

They said the Democratic party lacked the experience and training in statesmanship, which made for constructive leadership in solving the complicated problems on the far-flung line of our governmental activities. We produced the acknowledged leader of the liberal thought of the world, under whose standard gather the tried statesmen of every civilized nation, holding up his hands, as with clear vision and superb courage he leads the peoples of the world in their victorious charge against the arch enemy of civilization.

They said we were a free trade party, willing to sacrifice the prosperity of the country to an economic theory. We answered with a tariff law built upon the principle of fair competition, which American industry, self-respecting and courageous, is willing and able to meet and under which, as never before, the American producer has successfully entered the markets of the world and established a great balance of trade in his favor.

They said we were incapable of providing for the revenue needs of the Government. We forced the income Tax Amendment to the Constitution and under it levied taxes upon the income of idle wealth and the excess profits of corporations and individuals who, without such a check, would have scandalized the nation with the enormous profits made in the unusual conditions of war time.

They called us insincere in our profession of interest in labor. It was not till a Democratic majority appeared in the House of Representatives that the appeal of labor for a special enactment of the Government to guard its interests was heard and answered. * * * We passed a Workmen's Compensation Law and extended the eight-hour day. We created a Children's Bureau and stopped the exploitation of children in labor.

They said we were inimical to the interests of the farmer. A Farmers' Free List bill, though vetoed by President Taft, afterwards found its way into the Underwood tariff law. We perfected the system of countrywide rural delivery of mails, put the farmer at the city's gate by the parcels post, inaugurated the system of Federal aid for building highways, gave him a savings bank in every post office, established a rural credit system with the Federal Land Banks as a guaranty of proper financial support to agriculture in the future.

They said we were the friend of unsound money and the enemy of legitimate business. We relegated to the scrap heap of political and economic blunders, that archaic and inadequate system of finance whose iniquities and failures the Republican party had condoned for forty years, and built upon its ruins the greatest banking structure ever erected by mortal man, for the Federal Reserve system is today the model of the entire financial world upon which no political party, however jealous of our achievements, will ever dare to lay its impious hand.

And the one great slander which they have been fond of repeating since the days of the Civil War, was that we could not fight a war. It was said that the Republican party was the historic war party of the nation, and the Democratic party might have some value in opposition, but to trust it to prosecute a great war would be national suicide. And those who fed this slander to the American people were the leaders of the party which blundered through the Spanish-American War.

When the time came for the nation to arm, the young men went to the camps and across the seas, while behind them on every side, there were mobilized the great supporting forces from capital in finance and industry, from labor in mill and factory, from the soil on farm and garden patch. These were ready and they made an army of a hundred million strong. They were ready because their country had prepared, while the Democratic party was in power, by the new system of taxation, the new system of finance, the new consideration for labor and the new support to the farmer. These were the measures which marked the real preparedness of the nation for the great war. Without them, the magnificent courage of two million men on the Western front would have been but reckless stage play; disaster would have come to American arms and ruin to Christian civilization.

Must we forever sit silent under partisan charges of waste, extravagance or mistakes, many of them the necessary accompaniment of war, without any credit for the great and overwhelming result which we achieved? Let history begin to tell the truth now and it will say that the common courage of our men and women, the combined effort of capital and labor, the joint support of city and farm, all were welded into an irresitable force by a leadership never surpassed in the history of parliamentary government. And that was the leadership which the Democratic party gave to the world when it joined its practical achievements with its high ideals behind Woodrow Wilson.

Would You Farm Without a Plow?

Some day the question "Would you farm without a truck?" Will sound just as foolish.

The farm truck will be as common as a wagon—just as an auto is now as common, or more so, than carriages used to be.

The SANDOW Truck is especially well adapted to farm work, because it is made in several sizes that combine strength with lightness, every size being well over-strength to take care of over-loads, and because it is equipped with saving devices that make it the most economical in operation.

The SANDOW is made in 1, 1¼, 1½, 2, 3½ and 5 ton capacities, of which the 1, 1½ and 2 tons sizes are exceptionally well adapted for farm work in Northwest Missouri.

The farmer who buys a SANDOW this season will be just a little ahead in modern farm equipment, besides getting the advantage of the pre-war price which still prevails. The SANDOW has been able to hold truck prices down until it is today the greatest truck value ever offered to farmers.

For example specifications of the size you want, and demonstration of the truck, ask the

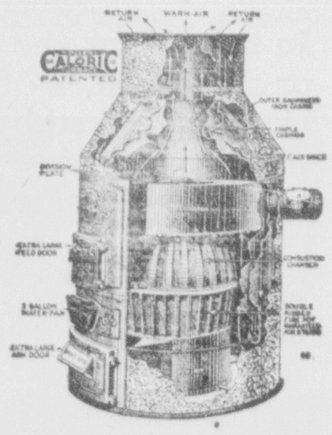
And Its Good Advice

"Build now" is the advice that Uncle Sam is sending out through his Department of Labor. And he says to build well and to build permanently. And if he were to continue further in his building advice, he would probably recommend

PIPELESS CALORIC FURNACE
TRADE MARK TRADE MARK
THE ORIGINAL PATENTED PIPELESS FURNACE

for your heating system. For the comforts of a home is very largely dependent upon a satisfactory furnace. With a Caloric pipeless furnace you can heat your entire house at less cost than only a part of it with stoves. It requires only one register on the ground floor of your home, and through this every room is made warm. It has numerous exclusively patented features that make it unequalled for heat capacity, economy and convience. Easy installed in one day in any house new or old. It burns any fuel—there is no smoke, coal, gas or dirt in the house—no heat wasting, expensive pipes in the walls or cellar.

Do not confuse the Caloric with other pipeless furnaces. It is not merely a furnace without pipes, but is built on an entirely new principle in furnace heating. Its manufacturers have put into it the experience of ninety-nine years in business, and stake their reputation on its ability to meet every claim.



Come in and let us show you this great furnace and tell you how it can be used in your home to advantage.

40 Years Ago Today

The following items are taken from the Nodaway Democrat of Thursday, June 12, 1879.

Burlington Junction is the name of the new town on the Nodaway, on the land of William Davis.

We advocate the building of a jail. Because it is a county measure and for the benefit of the county. (We still advocate it.)

ebrate the Fourth of July. The former place is making preparations already, and Barnard never does things by halves.

The Maryville academy closed last Friday. Under the supervision of Rev. Workman, it is an institution of learning highly creditable to Maryville.

When it commenced to rain Tuesday evening John Curfman placed a tub in his yard, and upon measuring the depth of the water next morning found it to be nearly five inches. He is of the opinion that the rainfall was at least 4½ inches.

A few Indians honored Maryville with their presence Wednesday.

L. M. Davis, of Andrew county, a brother of Pleasant and Jim Davis, is in the city visiting.

A scheme is on foot to erect on the northeast corner of Market and Third streets, east of the court house square, four brick stores and a two-story hotel over the business houses.

Miss Ida Hunt, Miss Ada Somers, Miss Ida Dutton, and Richard Dooley, all of the first department, received prizes for good scholarship during the last school year. Miss Hunt was the only pupil of this department who was neither absent or tardy during the term, and therefore received the first prize.

Last Saturday Curg Miller sold to Henry Woodward, to ship, one steer fifteen months old which weighed 1,050 pounds, for which he received $42.

Verbena Plants

From pots to close out, only 30c per dozen, while they last. We have a very complete line of bedding and flowering plants for all purposes, also vegetable plants for the garden

"HOME ASSOCIATION" FOR ST. LOUIS WORKING CLASS

To Build and Sell Homes To Wage Earners at Low Rates—Congestion the Cause.

St. Louis, June 12.—At a meeting of St. Louis business men at the Chamber of Commerce here, authorization was given for the organization of an association capitalized at $1,000,000 to build and sell homes to wage earners and salaried employees at low rates. The proposition will prove a great thing for the working men.

Jackson Johnson, president of the Chamber of Commerce of St. Louis, called the conference for the purpose of discussing housing conditions in this city.

Johnson directed a committee be named to perfect plans for the organization of the association.

Immediately after the adoption of the resolution providing for the organization of the home owners' association, which was introduced by Thomas W. Bennett, president of the Mortgage Trust Company, a bill was read by former Governor Folk, which will be presented to the state legislature, recommending that tax exemption be granted on the securities of the association similar to the exemption granted the Farmers' Loan Association.

Before reading the bill to the conference, Folk heartily endorsed the plan for building homes for working men. He said that the poor housing conditions cause disorder and disregard for law. He said that congested living conditions fostered anarchy and Bolshevism, and that a man would fight for his home, but would not fight for his boarding house.

One of the principal questions discussed by the conference was the reconstruction of homes in the so-called "blighted" district east of Grand Avenue.

SCHOOLBOY, 31, CHARGES ..... VET CALLED HIM SLACKER

Portland, Me., June 10.—In by far the oddest case heard in the Municipal Court here for many years, George A. Emery, an eighty-year-old Civil War veteran, was the defendant on the charge of heckling Charles W. Barker, the thirty-one-year-old junior of the Gray High School, as a "slacker". The "schoolboy", who stands six feet

discharged by the court, of continually annoying him by the stigma whenever and wherever they chanced to meet.

NOTICE OF SPECIAL ELECTION.

TO ALL THE QUALIFIED VOTERS OF THE CITY OF MARYVILLE, MISSOURI

Public notice is hereby given to all the qualified voters of the city of Maryville, Missouri, that under and pursuant to the provisions of Ordinance No. 825 of said city of Maryville, duly passed by the Council and approved by the Mayor on the 31st day of May, 1919, a special election will be held in said city of Maryville, Missouri, on Thursday, the 26th day of June, 1919, for the purpose of voting on the proposition to authorize and empower the Council of said city of Maryville to increase the indebtedness of said city of Maryville in the sum of Fifty thousand dollars in addition to the regular income and revenue now provided by law for said city by issuing and selling in the name and on behalf of said city of Maryville, bonds of the par value of Fifty thousand dollars, for the purpose of procuring money to enlarge, extend and improve the water works of said city of Maryville, and to levy and collect a special tax on the taxable property of said city of Maryville, in addition to the regular annual taxes now authorized to be levied said city, to pay said bonds and interest accruing thereon.

The polling places for said special election shall be as follows:

First Ward—City Fire Station, No. North Market Street.

Second Ward—Sewell Auto Company's office, No. 114 West 4th Street.

Third Ward—Office of J. H. Gray, 114 West 2nd Street.

Fourth Ward—Office of Shoemaker-Boyd Transfer Co., No. 120 East 3d Street.

All in said city of Maryville, Missouri.

The polls will be opened at 6 o'clock the morning and kept open until sun set the day of said special election.

Tickets or ballots to be voted at said special election will be provided for voters the following form "For increase of debt—Yes" and "For increase or debt—No." the former of which shall be taken as a vote consenting to such increase of debt and bonds in the amount and for the purposes hereinbefore set forth, and the latter as dissenting therefrom.

If two thirds of the qualified voters of the city of Maryville voting at said special election shall vote "For increase of debt—Yes" then the Council of said city of Maryville shall be thereby authorized and empowered to increase the indebtedness of said city of Maryville, to the amount aforesaid, by issuing and selling the bonds of said city in the amount of Fifty thousand dollars aforesaid, for the purposes aforesaid, and to levy and collect a special tax as aforesaid to pay the principal and interest of said bonds, and to enlarge, extend and improve the water works of said city of Maryville with the proceeds of the sale of said bonds.

Witness our hands as Mayor and City Clerk of said city of Maryville, Missouri, and the seal of said city, this 11th day of June, 1919.

(SEAL) W. O. GARRETT, Mayor

TO TRAIN FOR FOREIGN TRADE.

Bureau of Education Is Preparing Bulletin on Study of Modern Languages.

Columbia, June 12.—Specialists in modern languages in several universities of the country are aiding in the preparation of a bulletin on "Training for Foreign Service", to be issued by the Bureau of Education of the Department of the Interior. Prof. H. B. Almstedt, of the department of Germanic languages of the University of Missouri, has been asked to contribute an article to the bulletin on the study of German and Dutch.

The purpose and object of this bulletin, as outlined by the Bureau of Education, is to create common thinking and action in the colleges in the establishment of foreign service training courses. Business men and advanced educators believe that proper preparation in the modern commercial languages is one of the basic essentials in this type of instruction.

As the Germans will make a strong bid for foreign trade after the signing of the peace terms—it is reported that they are now sending trade emissaries to South America and other countries—it is believed essential from a commercial standpoint that German, along with other modern languages, should be studied in order that German competitors may be sent on the same basis of equipment.

From a commercial point of view alone, it is declared, German as well as Spanish, French, Italian, Russian, and other foreign languages should be studied widely in this country.

With the elevation of this country to the front rank of world powers comes the grave responsibility of training comprehensively and efficiently for foreign service. The representatives of this county, it has been pointed out by experts, whether they represent the government or stand sponsors to great commercial or industrial enterprise should reflect honor and credit on the country.

MISSOURI CHIROPRACTIC ASSN. PAYS $1,815 FOR LEGAL PRACTICE.

Jefferson City, June 12—According to an affidavit filed with the secretary of state here it cost the Missouri State Chiropractic Association a total of $1,815 to pass the bill legalizing practice of chiropody in the state of Missouri.

The affidavit was filed by William C. Hunfeld, of Franklin County, president of the association.

Of the amount named $1,000 was paid to Charles A. Smith, as attorney's fees and $565 was paid for Smith's personal expenses while in this city, putting the bill through. Printing, postage and stenographers cost $250.

This is the only expense statement filed by any of the paid lobbyists who operated during the recent session of the 50th General Assembly.

MOTOR TRUCKS MAKING CROSS COUNTRY TOUR.

St. Louis, June 12.—Fifty motor trucks of varied makes have started from this city on a 400-mile expedition, under the direction of the St. Louis Automobile Manufacturers Association The trip was planned to show the transportation possibilities of motor-driven vehicles, and the economy in their use for all hauling purposes.

Wentzville, forty-four miles away, was the first stop. The round trip includes stops at Troy, Louisiana, Hannibal, Quincy, Camy Point, Clayton, Mount Sterling, Rushville, Beardstown, Virginia, Jacksonville, Roadhouse, Jerseyville, Alton. The trucks will return to this city Friday.

The tour, one of the first of its kind in St. Louis territory will be followed by similar demonstrations, in every section of the country. No attempt at great speed is being made, steadiness of operation being to advantage emphasized. Several of the larger companies last year made across the country tours, carrying military supplies. These runs, proving the great possibilities of motor-transportation, were forerunners of the present expedition.

THE "HOMBRES" LIVED HIGH.

Junction City, Mo., June 12.—What a bunch of fourteen Mexicans working on a railroad, were arrested and taken to jail the city officials had no idea that Mexican customs would be transported to this town, so far away from the border. A short time after the arrest a crowd of Mexican women and children bearing fruit, tobacco and food went to the jail and wanted to feed the prisoners.

The police were mystified until an interpreter explained that the custom in Mexico was when a man was arrested for his relatives to provide the food. The "hombres" thought the same plan prevailed here.

However, the city provides each man in jail with two meals a day, so with two big meals from the city and what their relatives brought the Mexicans lived high during their incarceration.

Mozingo Valley Church Notes.

The third quarterly conference will be held at Pickering Saturday afternoon at 2 p. m. Rev. D. F. Stiles of Hopkins, will preach at Mozingo Valley Sunday morning and Rev. C. S. Dayhoff Sunday night. The basket dinner has been postponed.

Social, Clubs Churches

Birthday Party.

Misses Grace, Helen and Gladys Dragoo and Lowell Andrews motored to Bedford, Ia., Tuesday to attend a birthday party at the home of Mr. and Mrs. William Friend, given in honor of their daughter, Miss Olevia Friend, and their nephew, Lowell Andrews. About forty invitations were issued.

Marriage Announcement.

Mr. and Mrs. Alex Holt announce the marriage of their daughter, Fern L., to James A. Sweney of Rexville, N. Y., Tuesday, June 10, in Omaha. Mr. and Mrs. Sweney left for Nenzel, Neb., where they will make their home The groom had been in the forestry service and had served overseas with the 20th Engineers.

Penelope Club.

The regular meeting of the Penelope club was held yesterday afternoon at the home of Mrs. S. J. DeArmond on East Third street. The afternoon was spent in needle work, after which refreshments were served by the hostess, assisted by her daughter, Miss Blanche DeArmond. Mrs. George Custer of Kansas City, Mrs. John Dawson and Miss DeArmond were guests of the club.

Serial Starting at Electric.

Beginning tomorrow night the Electric theater is opening a serial photoplay entitled "Perils of Thunder Mountain." There are 15 episodes to this serial, one to be run every Friday night. The scenes are laid in the north where snow and beautiful scenery are plentiful. It is a picture full of life and action. Antonio Moreno and Carl Holloway are cast in the leading parts.

Supper for Husbands.

The members of the Woman's Bible class of the Presbyterian church entertained their husbands and a few guests at a 7 o'clock supper last night in the church parlors. Miss Lucie Davis was selected to teach the class, succeeding Mrs. Florence Staples, who has gone to Kansas City to make her home. The visitors for the evening were Rev. and Mrs. S. A. Coile and Miss Davis.

Mrs. Wells Hostess.

Mrs. Harry Wells was hostess to the Monday Afternoon and Saturday Night Bridge clubs yesterday afternoon at the home of Mrs. J. L. Felix on West 7th street. On account of the inclement weather the meeting was changed from the country home of Mrs. Wells to the Felix residence. Mrs. Marve Curnutt received the favor for the Monday Afternoon club, and the Saturday Night club's prize was awarded to Mrs. Cleve Funk. The guests for the afternoon were Mrs. W. A. Rickenbrode and Mrs. C. D. Koch.

Mr. Sanders to Wed.

Announcement is made of the approaching marriage of Walter J. Sanders of St. Joseph and Miss Isabelle Smith, secretary of the Y. W. C. A. at Long Beach, Cal., during the last two years. The wedding will take place Wednesday, June 18, at the home of the bride-elect's brother, James F. Smith, in Eminence, Ky. Following the ceremony Mr. Sanders and his bride will leave for a trip to the Great Lakes, and after August 1 they will be at home at 1801 Jule street, St. Joseph. Mr. Sanders is treasurer of the Combe Printing and Lithographing Company of St. Joseph, and is well known in this city.

Robb-Cooper.

Miss Lula Octavia Robb and Frank Oval Cooper, both of Sheridan, were united in marriage yesterday in St. Joseph, Rev. Wentworth, pastor of White Temple Methodist church, officiating. The bride taught at the Luteson school, near Sheridan, the past year, and Mr. Cooper, upon his release from military service, finished the school term at Gaynor. Mr. and Mrs. Cooper will make their home on a farm near Gaynor. Miss Ocie Robb, a student at the State Teachers College, and Miss Mary Robb of Sheridan, sisters of the bride, and County Superintendent Bert Cooper, a brother of the groom, attended the wedding. Mr. Cooper is the son of B. H. Cooper of Gaynor.

Evans-Crom Marriage.

Miss Mildred Evans, daughter of Mr. and Mrs. L. H. Evans and Frank J. Crom of Pierce, Colo., were married this afternoon at the residence of Rev. and Mrs. C. C. Harris in Creston, Ia. Rev. Harris, a former pastor and close friend of the Evans family, performed the ceremony. The young couple were accompanied to Creston by the bride's parents and her sister, Minnie Evans. The bride's gown was of gray georgette over pink silk. After the ceremony a six o'clock dinner was served at the hotel. Mr. and Mrs. Crom took the evening train for their home in Pierce, Colo. The groom has just received his discharge from the navy where he held the rating of coxswain. Before crossing the seas he was instructor in the naval training school at San Francisco.

Herron Homemaking Circle.

Mrs. E. Everest was hostess to the Herron Homemaking Circle yesterday afternoon at her home near Maryville. The inclemency of the weather prevented a large attendance. The time was spent socially and refreshments were served.

Breaks Two Ribs in Fall.

Charles Kalstrup, a farmer residing southwest of this city, suffered two fractured ribs about 7 o'clock this morning when he fell from a fence at his home.

Kalstrup was climbing the fence to bring a cow back from pasture when the accident occurred. He came to Maryville where he received medical attention.

Hopkins Baptist Church.

Rev. A. J. Thames, superintendent of Missions of the Kansas City district, will speak at the Hopkins Baptist church Sunday. Services in the morning, afternoon and evening. A basket dinner at noon in the grove. A cordial invitation is extended all to bring their dinners and spend the day with us. We desire to see the "old hill" full of folks and conveyances. Help make it a banner day in the work of both Sabbath School and church. R. R. WATTS, Pastor.

A New Strawberry Record.

F. M. Claycomb, formerly of Maryville, and now located on a farm in Anderson County, Missouri, sends in an interesting account of the country which he now calls home.

Claycomb says that on one acre in Anderson county 317 crates of strawberries were grown, and that they averaged $6 per crate.

Home From Visit.

W. A. Miller returned this morning from a visit with relatives in Alton, Ill., and Burlington and Wapello, Ia. He also spent a few days in St. Louis buying stock for the Bee Hive Shoe store, and while there visited Rev. and Mrs. C. Emerson Miller, formerly of this city.

Miss Francis Holliday, assistant teacher in the training school of the State Teachers College, sustained a badly sprained ankle and a broken down arch yesterday afternoon while assisting in the folk dancing classes.

ENGLISH WAR CABINET TO BE RECONSTRUCTION BODY.

London, (by mail)—With the signing of peace, Great Britain's war cabinet is expected to develop into a somewhat larger reconstruction cabinet. The War Cabinet comprised five men plus the Prime Minister. Now Sir Erie Geddes, Minister of Transport, has been added.

It is expected that with a return to conditions of peace, the reconstruction cabinet will be augmented by inclusion of the Foreign Colonial, Indian and War secretaryship the First Lord of the Admiralty and the Minister responsible for trade and commerce, and perhaps the Minister of Labor.

As at present constituted, the Prime Minister's cabinet comprises some forty men, including the chief ministers, secretaryships and presidents of government departments. It is too unwieldy to act quickly as a whole body on any matter. Hence the tendency toward creation of an inned cabinet,

Commenting upon the possibility of such cabinet procedure, the Evening Standard says some change may be expected as regards the Colonial Secretaryship, the trend being for separation of the crown colonies from the self-governing dominions and a minister being appointed for the latter only. Imperial preference in trade and commerce for the dominions would make the latter post important.

"The Lord Privy Seal and the Lord President of the Council," says the Standard "might well be reserved for distinguished men who, freed of details of administration, are statesmen in the highest sense of the world. In the British Cabinet there should always be room for men like Mr. Balfour or Lord Curzon, who have minds not so exclusively bent on the present that they are mindless of the lessons of the past or indifferent to the dangers of the future.

"The probabilities are that there will be a return, to a large extent, to the collective cabinet responsibility of prewar days, though never, let us hope, to the days of cabinet so unwieldy that the charge that it was a debating society was not unfounded."

GOV'T. HEALTH SERVICE HOSPITAL FOR ST. LOUIS.

St. Louis, June 12.—The Board of Estimate and Appointment at a meeting here decided to accept the government's proposal to take over United States General Hospital No. 40, formerly the City Infirmery. The condition will be made that the government within a year begin the erection of a new building for use by the United States health serivce. It also was decided to ask an official be sent here to negotiate with the city regarding remuneration for further use of the buildings.

Plans for the erection of a 750 bed hospital here by the Public Health Service were told by Thomas B. Lovelace and Edward Gengenbach of the Chamber of Commerce.

Director of Public Welfare Schmoll said the maintaing of the city's infirmary in the Christian Brother's College building will mean an additional cost of $50,000.

MOONSHINE NOW MADE THROUGH USE OF ICE.

Thomasville, Ga., June 11.—It is being rumored that in some sections of the Wiregrass, moonshine booze is being made by a process that calls for an ice cream freezer, instead of the timehonored lard can.

By this process it is said, the "mash" is put in the freezer, and when it has become frozen the booze just separates from the mash and "there you are," with no distilling needed and no smoke to it as a give-away. Of course by this process it would be necessary to be near a town to get a supply of ice, but in spite of inconveniences of that sort large sales of ice cream freezers are reported from some sections, though this immediate section is said to be still faithful to the lard can.

Wheat Usually Graded High at Terminals.

A large percentage of the wheat delivered at the terminal markets for interstate or foreign shipment is placed in the highest grades of the Federal grain standards by grain inspectors licensed by the United States Department of Agriculture. Duluth and Minneapolis are two of the largest terminal wheat markets in the country. Between January 15, 1918, when the revised Federal grades became effective, and December 31, 1918, more than 40,000 cars of hard red spring wheat were inspected at Duluth, of which nearly 85 per cent was placed in grade No. 1. At Minneapolis nearly 50,000 cars were inspected, of which more than 70 per cent was placed in grade No. 1.

When a farmer sells his wheat to the local elevator, a grade is placed upon it usually by the elevator manager and not by a licensed inspector of the Federal Government, because few such inspectors are located at country points. Unless the grain is ground at the local mill, it is finally shipped to a terminal market, where it is graded by a disinterested inspector who is licensed by the Secretary of Agriculture. In deciding the grade the inspector uses the grades established by the United States Department of Agriculture, which are often referred to as the Federal grades.

Enforcing Grain Standards Act.

In enforcing the grain standards act, the authority of the Federal government reaches only shipments of grain in interstate commerce—from one State to another—or to foreign countries. The Department can not control the country buyer or elevator man, nor the miller who buys grain on the spot, for such transactions usually are not interstate. While these buyers may use Federal grades, the grading is not under the jurisdiction of the Department. If they do not assign the grades fairly and accurately, only the State officials can reach them. The licensed inspectors, however, are under the control of the Department. Such inspectors are not allowed to continue to inspect unless they are competent. If anyone is employed in an elevator or mill or has any connection with the buying and selling of grain he can not secure a license to inspect grain, and if he does not do satisfactory work his license may be suspended or revoked.

INCREASED USE OF ZINC.

St. Louis, June 11.—Zinc, of which the public knows but little save that it is "a lowly sort of metal," already is being used in the manufacture of corset steel tips, shoe pegs, roofing shingles, wire, springs, nails, electric fan blades, pencil ferrules, automobile hub caps and lighting figures.

Soon, according to delegates to the convention of the American Zinc Institute in session here, zinc will be used in the manufacture of containers for tobacco, confections and many other products now made of tin or other metals.

The purpose of the institute is to "put zinc on the map" and an educational campaign to do this will soon be launched.

Marriage License to Amazonia Couple.

A marriage license was issued this morning to Jerrie Masoner and Louise Dick, both of Amazonia.

GOODBY, WOMEN'S TROUBLES

The tortures and discomforts of weak, lame and aching back, swollen feet and limbs, weakness, dizziness, nausea, as a rule have their origin in kidney trouble, not "female complaints." These general symptoms of kidney and bladder disease are well known—so is the remedy.

Next time you feel a twinge of pain in the back or are troubled with headache, indigestion, insomnia, irritation in the bladder or pain in the loins and lower abdomen, you will find quick and sure relief in GOLD MEDAL Haarlem Oil Capsules. This old and tried remedy for kidney trouble and allied derangements has stood the test for hundreds of years. It does the work. Pains and troubles vanish and new life and health will come to you continue their use. When completely restored to your usual vigor, continue taking a capsule or two each day.

GOLD MEDAL Haarlem Oil Capsules are imported from the laboratories at Haarlem, Holland. Do not accept a substitute. Three sealed boxes, three sizes.

Cheap Containers Best.

The cost and treatment of containers have much to do with success in marketing by parcel post. A container should be cheap, neat, and light. The amounts involved in most parcel-post shipments of farm produce do not warrant the use of an expensive, heavy package because of the first cost and the charges for postage. The container should be adapted to the particular produce shipped and should be whole and clean.

The trouble of returning empty containers often influences people to discontinue parcel-post marketing. The city dweller often has little room to keep containers, and it is not practicable to return them singly, for the cost of postage is high on small shipments. Then,too, it is often inconvenient to take a bulky package to the post office station. If the customer can not conveniently store them and return three or four at one time the producer should, if possible, use containers that are cheap enough for a sngle service. Containers should never be bought with price as the only consideration, however, as they should be strong enough to carry the contents safely. For many shipments cheap splint baskets are satisfactory and the cost is so small as to make the return of them unnecessary. Any plan concerning the return of containers should be clearly understood by both producer and consumer before shipments are made.

M. U. OFFERS HOSPITAL SITE.

Curators Would Give Boone County Use of Land on University Campus.

Columbia, June 10.—The University of Missouri authorities last week offered to give the northwest corner of the University campus for a site for the new Boone County Public Hospital. Along with the land the University offered heat, light, water, laboratories, and the use of the new X-Ray machine in return for educational advantages.

It was said by one member of the hospital board unofficially that the University's offer of a site probably would not be accepted. The board, however, has not expressed any opinion on the matter.

RED CROSS LEADERS HERE TOMORROW IN CONFERENCE

Miss Neiswanger and Laptad of St. Louis Suggest Nurse for This County—Big Convention at St. Louis June 16.

Miss Laura Neiswanger, director of Bureau of Public Health of the Southwestern Division and her assistant Miss Pearl Laptad from St. Louis are conferring with the officials of the Nodaway Red Cross today.

Miss Neiswanger stated that she hoped to place a nurse in this county in the very near future who will assist the resident county nurse in her activities and keep in close official touch with the head of this division.

The conference of delegates from all the organizations in the Southwestern Division will be held next June 16 at St. Louis; Dallas, Texas, June 18, and at Wichita, Kan., June 20. All organizations must send at least one delegate to this conference but it is desired that as many attend as can. The delegate from Nodaway county has not definitely been selected, as yet, but it is probable that M. J. Alderman will attend the St. Louis convention.

"Let's Make It a Million."

A million members next year in the farm bureau of the 33 northern and western states is the goal set in a notice to county agent leaders and county agents by the United States Department of Agriculture. Reports show that on April 1 there were 409,841 farm bureau members in these states, with 8,575 community committees—nearly a 30 per cent increase since December, 1918, report, despite the influenza epidemic which handicapped membership campaigns.

"According to the 1910 census," says the notice to county agents, "there were 3,262,955 farms in the northern and western states. With one-third of the farms represented in the farm bureaus they could be truly said to be fairly representative. Farmers should not be coaxed or scared or fooled into the farm bureau. The organization is an appeal to their intelligence and their memberships should be solicited on a thoroughly dignified common sense business basis. Now is the time to make plans for the annual membership campaigns for next fall and winter. Some of the States may wish to do this on a state-wide basis."

Fertilizers Sold in Missouri in 1918

The sale of fertilizer in the state of Missouri amounted approximately to 90,000 tons during 1918. This is 25,000 tons more than was reached in 1917,the year with the next highest total. This enormous sale was due primarily to the increased acreage sown to wheat last year. While this year's sales may not reach the high total of last year it still promises to be large. Users of fertilizers are increasing in number every year, and its value has been demonstrated as a business proposition to those who have used it in the past.

Some Corset Truths for Women to Consider

It is not an easy task to reshape a neglected figure into shapely lines. Neglect or poor corsetry allows little bumps, angles or hollows to mare the figure lines.

To smooth out these inequalities a properly de signed corset and the use of proper materials in the corset will recreate the figure.

MODART Front Laced Corsets are poise designed. The designer of the MODART Corset makes all MODART Corsets give proper poise to the figure and then designs the corset to symmetrical artistic proportions.

Women with madly poised figures can never be graceful—try as they may. If proper poise is lacking, the grace is lacking too.

So whether you are tall or short, stout or slender, you can have the carriage that will show your figure and your clothes to the greatest possible advantage if you will adopt the MODART Corset.

We ask you to accept a trial fitting, which costs you nothing and you will immediately see why social leaders, famous actresses and beautiful women generally wear the MODART.

WOOL! WOOL!!

I will buy your wool and pay the highest market price. My record in handling last years clip under government rulings is sufficient guarantee I can give best results. Plenty of sacks and twine on hands.

"Dept. Stores All Sorts of Things"

Are Moving This Week Into Their New Store

HAVE YOU SEEN IT?

Right Next to Townsend's
Right Next to Woolworth's

Have you noticed that attractive new show window. Beautiful isn't it? And next week, its going to be brimful of new summary merchandise at our usual attractive prices.

There'll be an Opening Sale on Friday and Saturday of next week. Be sure to come—you'll want to see how conviently arranged the new store is; further, you'll be interested in the new things we have to show you for summer wear.

Its a new Store with an old policy.

EVERYTHING GOES FOR CASH.

ONE PRICE TO EVERYBODY.

ALL PRICES IN PLAIN FIGURES.

MONEY CHEERFULLY REFUNDED IF YOU AREN'T SATISFIED.

THE BEST FOR A LITTLE LESS.

We Want Your Trade

And we'll justify your patronage by saving you money. There are thirty other busy stores like this one in Missouri and Iowa. THEY—

Buy in large quanities.

Direct from manufacturers.

Sell for cash—always have.

No losses on credit accounts.

Eliminate cost of delivery.

That's why we can save you money — our prices carry conviction.

The old store will be open until Tuesday of next week—things are a bit torn up but we'll take care of you just the same. Come in.

Watch next week's paper for our Opening Announcement, and be sure to reserve Friday to come to
